**NEW
REDESIGNED
1989 TIMPTE
GRAIN HOPPER**

Got Grain? Then get the trailer that is Timpte tough... the Super Hopper. It's not only built to take it...it's also built to cut fuel costs. The Super Hopper is lightweight and aerodynamically designed to reduce wind drag. When there's grain to be hauled, Timpte does the haulin' best and pulls a lot easier than the rest.

**ALUMINUM
GOOSENECK TRAILERS**

20' Gooseneck Trailer

A versatile, lightweight, Eby aluminum stock trailer is built to provide years of maintenance free service. An Eby trailer is custom built to fit your individual hauling needs - No mass production! We use only quality components and strong alloy aluminum to manufacture what may be the last trailer you'll ever buy.

- **LIGHTWEIGHT** - Eby stock trailers are 25-35% lighter than comparable steel trailers. Less weight means better fuel mileage or increased payload.
- **MAINTENANCE** - Eby aluminum trailers won't rust. Welding and painting can cost you dollars in down time and repairs.
- **DURABILITY** - Eby trailers are built tough. Quality components and 6061 alloy aluminum provide the ruggedness required in a live-stock trailer.
