

Unverferth Offers Brent Grain Carts

KALIDA, OH — Unverferth Manufacturing Company, Inc. is now offering Brent® grain carts in six models.

The carts have capacities from 355 to 930 bushels and a new, innovative, corner-mounted direct-drive auger that provides excellent visibility and includes a spotlight for nighttime unloading is standard on five models.

Other features include 38" hydraulic flow control, visible flow-control position indicator, fold-up sideboards, four charged hydraulic hoses and ISO couplers, flashing tail lights and neoprene-rubber wrap-around spout. Factory-installed scales, 144" axle extensions and hydraulic drive are optional.

The carts are painted with a durable primer coat and fade-resistant, high grade red or green enamel.

This grain cart features 38-inch hydraulic flow control and a corner-mounted direct-drive auger.

facturing, Co., Inc., P.O. Box 357, 800-322-6301, 419-532-3121, Kalida, OH 45853, telephone FAX 419-532-2468.

This silo unloader has an auger that includes ripping teeth that overlap and interlock for high-volume delivery of silage.

Patz Introduces New Silo Unloaders

Patz adds two new dual-auger silo unloaders to its line of feeding equipment: Model 8800 surface-drive silo unloader. Model 8810 center-drive silo unloader.

These unloaders provide the features that farmer's need as standard equipment. Both augers include ripping teeth that overlap and interlock for high-volume delivery of frozen and packed silage. Other features include heavy-duty augers with 1/4-inch auger flighting; stainless-steel auger guard; a 28-inch blower includes integrated stainless steel back panel; four cupped, free-swinging, cast-iron paddles with one-inch pins; electrical joint with fiber-disc bearings; cast-iron gearbox that keeps bearings aligned; dual offset wall cleaners; and dual cast-iron crawler wheels.

For more information, contact a Patz dealer or: Patz, P.O. Box 7,

Pound, Wisconsin 54161-0007. Phone: (414) 897-2251.

Smoother Shifting Possible

Developed for increased maneuverability and minimal power loss, the transmission on this tractor lasts longer than standard transmissions.

With Kubota's L2850 GST

COMPTON, CALIF — Kubota Tractor Corporation recently introduced its powerful new L2850 tractor with a Glideshift Transmission (GST) allowing for easy shifting through eight forward and reverse speeds without using the clutch. The GST works to reduce engine and clutch stress, and lessen operator fatigue. Kubota's 4-wheel drive L2850 GST is powered by a four-cylinder, liquid-cooled diesel engine with 27 PTO horsepower and a gross horsepower of 34.

Developed for increased maneuverability and minimal power loss, the Glideshift Transmission means longer transmission and clutch life. Power steering and draft control are standard on the

L2850 GST. This model is also equipped with two speed rear and mid-mount PTO and an Easy Checker® panel.

The L2850 GST performs even under a heavy workload and is ideal for many applications including general or weekend farming, landscaping and construction work. Also, a variety of compatible implements are available for the L2850 GST for use in mowing, front loading, tilling and more.

Kubota Tractor Corporation markets a complete line of tractors from 10 to 85 horsepower, along with a variety of lawn and garden implements, compact construction equipment and a comprehensive line of consumer power products.

ALL HAVE SAME ORIGINAL DESIGNED:

- 4-Wheel Drive
 - Increased productivity
 - safer and lower center of gravity
 - less soil compaction
 - high ground clearance
 - NO limited slip clutch
- 50" Front Turning Axle
 - smaller turning radius
 - Improved maneuverability
- Air-Cooled Diesel
 - low fuel consumption
 - lower engine maintenance and repair than water cooled
- Hydraulics
 - 2 or 3 or 4 spool valves
 - greatest 3-point lift cap available today
 - lower link sensing
