Reliable Feeding

Both the RD-820 ring-drive silo unloader and the 98B surface-drive silo unloader have a double-hook gathering chain with hardened steel cutters and claws that cut through frozen and packed silage.

- Spring-tensioned powered cutter keeps silo walls free of buildup.
- Adjustable depth-of-cut control makes feeding truly automatic (98B).
- Powerful blowers with adjustable impeller blades for efficient blowing.

We'll show you how to get the most performance for your money.
