## Cressley Regains Carbon County Hog Honors

LEHIGHTON (Carbon) — Kirk Cressley of Lehighton continued a winning tradition as his 254-pound crossbred market hog took top honors at the 110th Carbon County Fair. Cressley took the top honors two years ago and, after dropping

to the reserve champion last year, he paraded his Duroc crossbred by Calvin Lazarus & Sons of Lehigh County, into the top spot last Monday, August 22.

Cressley also exhibited the grand champion pen-of-three, the

grand champion lightweight, and second-place heavyweight animals. Cressley's grand champion topped Thursday's sale with successful bidder Hatfield Packing Company paying \$2.50 per pound. Farm Credit then paid \$.95 per pound for the two remaining hogs from Cressley's grand champion pen-of-three.

For reserve champion Judge Dave Hartman went with a 222-pound barrow shown by Deanna Miller. Miller's mediumweight champion brought a \$2.30 per pound price on Thursday and was purchased by Arnold's Hog Farm of Lebanon.

Other weight class champions included Kelly Wentz in the heavy lightweight and heavy mediumweight classes and Cory Wentz in the heavyweight class.

Champion fitter honors went to Heather Green with reserve going to Kirk Cressley. In showmanship Kelly Wentz, in her last year of 4-H, took the top spot with Cory Wentz claiming the reserve.

The August 25 sale saw 35 head go through the sale ring with an average price per pound of \$.76

and \$.65 per pound average champions. Including the grand excluding the grand and reserve

champion Hatfield Packing Company was successful bidder on 18 head. Other buyers included Arnold's Hog Farm, George's Foodliner, Farm Credit, Raber Farms, Lazarus Farm Market, Brown Feeds, and Kuehner Brothers Farm.

## McKeehan Retires From Penn State

UNIVERSITY PARK (Centre) - James J. McKeehen, regional director for the Southeast Region of Penn State Cooperative Extension, retired from Penn State July 18 concluding a 36-year career.

As regional director, McKeehen coordinated the personnel, budget and programs for 16 southeast counties.

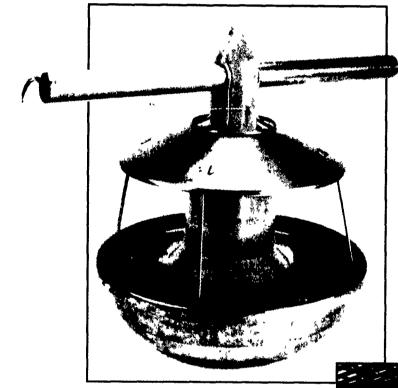

Just a month after earning a bachelor's degree in dairy science from Penn State, he began his extension career as assistant county agricultural agent in Erie County. His father, James E. McKeehen, was then county agent in Wayne County. They were the first father-son team of county agents since cooperative extension began in 1914 in Pennsylvania.

In Eric County McKeehen was active in many phases of the extension education programming including dairy, livestock, poultry, fruit, ornamentals and 4-H youth. In 1956 he was promoted from assistant to associate agent, then in 1958 he transferred to Delaware County.

In 1974 he was named Delaware County extension director. As director he was responsible for budget and personnel, and oversaw the development of all county programs. During his tenure in Delaware County, he was actively engaged in developing multicounty programs, such as a turf school, plant and pest seminars, industrial weed control seminars, fruit meetings, a shade tree symposium and regular vegetable growers' meetings.

He also initiated programs for garden supply dealers, landscape gardeners, contractors and arborists. In addition, he managed a staff of 32 full-time and part-time employees.

McKeehen and his wife, Barbara, plan to remain in State College. They are the parents of four 'Penn State' children. James graduated in '76 and Sally in '78. Ann will graduate in '89 and John in '91.

The Turkey Feeder that **Solves Four** Problems of **Continuous Grow-Out.** 

- 2 Every feeder line accepts interchangeable pan sizes, medium depth and deep pans, Plus Big Dutchman offers The Orange One, a smaller feeder with a more shallow 13-inch diameter pan for starting
- 3 Feed depth and flow are controlled by a single winch at the hopper end of the line Accurate settings are easy to make without time-consuming, one-byone adjustments. Only Big Dutchman offers this depth control feature
- 4 The Big Dutchman turkey feeding system has an outstanding capability for programmed feeding. The cable adjustment mechanism allows the operator to fill all the pans in the line to maximum capacity when birds are first brought into the house. As feed is eaten out of the pans, the adjustable skirt will move down to the pre-selected position

- Strong central core keeps the skirt aligned and holds pan and shield
- Large pan is extra deep with feed saving lip. The large pan is 5 inches. deep, medium pan is 3 inches deep
- Draw cable raises or lowers all pan skirts in the line Maximum feed
- · Ample open space between the pan and the upper shield allows adult turkeys to eat comfortably
- Suspension of the plastic core is strengthened by steel hangers that engage the plastic core above the auger tube
- There are no small parts. Assembly and maintenance are simple and
- · Interchangeable pan sizes provide versatility matching the feeding equipment to the needs and growth stages of the flock from poults

Big Dutchman.
