“Consider The Concrete Advantages”

You still have time to get your Sollenberger Silo for high moisture corn storage this fall. The summer of 1988 will be remembered for the many hot, dry days. These high temperatures damaged a lot of stored corn in structures that have a thin wall and do not reflect heat. Avoid this heat damage with a poured concrete silo from Sollenberger Silos Crop.

- * The Laidig 43 bottom unloader handles high moisture ear corn and shelled corn.
- * The Laidig 98 or 198 will do a good job with grains or forage at 50% moisture. **BY FILLING EARLIER YOU CAN SAVE YOUR VALUABLE LEAVES.**

You Will Appreciate The Quality Of A Sollenberger Silo For Many Years To Come.

FEATURED DEALER OF THE WEEK

Stoneboro, PA
Give Bill Hittle A Call At 412-376-7711

FACT: Our poured concrete wall has 780 times more heat-resisting ability than steel. Heat damage occurs when stored feed is heated above 95° F. Our silo protects your feed quality.

For Sale: A Good Used 24' Big Jim Unloader
