Use a Case International shredder to fine-shred heavy, tough cotton, corn or sorghum stalks to speed decomposition, ease your tillage, planting and cultivating work. They're also useful for clipping pastures, shredding weeds, tall grass, or brush. And they actually require less power to operate because knives are spiral-mounted around the rotor.

- 170" wide.
- Shatter-shear type knives can be reversed to match the job; blunt edge shatters stalks completely.
- Wheels easily adjust up or down for cutting height, in and out to match row spacings; endwise transport for 170" model.
- Safety features: full shielded drives, gear case, extended end sheets; front-mounted curtain.
- 1000 RPM PTO
