

cured products to include "fresh" in conjunction with the product name.

Also restricted is any canned, hermetically sealed shelf-stable, dried or chemically preserved product and any poultry or poultry part that has been frozen or previously frozen to 26 degrees or below at its center.

The regulations had not allowed cured red meat products to be called "fresh", and "we do not believe that there is valid reason to differentiate cured red meats from cured poultry products," FSIS said in a memo.

Poultry had not been included in the regulations, FSIS said, because cured poultry products were not

available at the time the regulations were written.

"Fresh" may be used on processed products with ingredients that could not be labeled "fresh," such as a frozen ground beef pizza or a chicken salad sold in a store's refrigerated food section.

Reprinted from the October 6 issue of *Drovers Journal*.

### Poultry Subject To "Fresh" Rules

Poultry now will be subject to the same rules that govern beef concerning the use of the term "fresh" on product labels, accord-

ing to USDA's Food Safety and Inspection Service (FSIS).

To standardize requirements for red meat and poultry products, FSIS will no longer allow any

### Recycle The Barn People
