

Tillage Conference Set

(Continued from Page A1)

play is scheduled December 14 at the York County Fairground in York, Pa. More than 800 persons from the six-state area are expected to attend.

Activities will begin at 8 a.m. with free coffee and doughnuts, plus an opportunity to visit more than 50 industry exhibits in Memorial Hall at the fairground.

The educational program will run from 10 a.m. to 3:15 p.m. in the same building, with 1 1/2 hours off for lunch in Old Main and another chance to visit industry displays in Memorial Hall.

Tickets for the noon lunch are \$3 and are available from county cooperative extension office. Lunch tickets must be purchased by December 2.

Two nationally known farm magazine writers will highlight the roster of speakers for this year's Mid-Atlantic Conservation Tillage Conference.

Len Richardson, editor of Agricultural Age, a San Francisco, California based trade publication, will lead off the morning session with a presentation on "How Water Quality Issues Are Shaping Our Future".

Currently a resident of Danville, California, Richardson grew up on an Arizona dairy farm and served as that state's FFA President. He later was an associate editor of The National Future Farmer magazine.

Dr. John F. Marten of West Lafayette, Indiana, will lead off the afternoon session as keynote speaker of the day. Dr. Marten's topic will concern "Farm Production, Prices and Politics in 1989." Marten is an agricultural consultant to several organizations and staff economist for Farm Journal magazine.

A native of central Illinois, Dr. Marten holds degrees in agricultural economics from Iowa State and Purdue universities. He was a popular speaker during the Mid-Atlantic No-Till Conference in 1985 at the Maryland state fairground.

Other topics and speakers scheduled for the December 14 meeting at York includes:

— "Conservation Tillage and Groundwater Quality" - Dr. Richard A. Weismiller, Extension agronomist at the University of Maryland in College Park.

— "Progress on Genetic Engineering to Achieve Roundup

Tolerance in Crops" - Dr. Robert T. Fraley, director, plant science technology, Monsanto Agricultural Co.

— "Improving Nutrient Efficiency With No-Tillage" - Dr. V. Allan Bandel, Extension agronomist, University of Maryland.

— "Tillage Alternatives" - Dr. Richard R. Johnson, senior agronomist, Deere and Co. Technical Center, Moline, Illinois, and Lynn D. Hoffman, agronomy research center superintendent, Penn State University.

ATTENTION TOBACCO GROWERS

Golden Leaf Tobacco Company Will Be In Our New Location MARTIN'S SALE BARN

2 Miles east of Intercourse at the junction of New Holland Rd. & Rt. 340, (the original Pennsylvania Tobacco Auction Barn) starting Monday, November 28, 1988

We invite each of you to contact us after 10 a.m. on that day at our new telephone number

717-768-3074

for new developments & prices for your 609 tobacco crop.

We feel our reputation, to be one of the most honest & reliable dealers in Lancaster Co., guarantees you rewarding sales for your 1988 609 tobacco crop. We ask only that you call our company before you sell.

For those of you who desire to sell your tobacco at auction, we promise our full support in the auction system as we have since its opening in 1985. We also support private sales if you, the farmer, so desire.

We advise you to grade your tobacco by color and not too damp for top prices.

The outlet is good, please consider us as your buyer this year.

HOGS DON'T HAVE TO BE SLOPPY EATERS.

Thanks To Hog Slat's Exclusive Feeder Features.

- Easy Adjusting
- Efficient Agitation
- Deeper Troughs
- Feed-saver Trough Lips

LESS FEED WASTE MEANS GREATER HOG PROFITS.

Hog Slat's new stainless steel confinement feeder is designed to keep your hogs at the trough, standing and eating. No more picking up and backing off.

That means less spillage, less waste, greater hog profits.

Compare Hog Slat's stainless steel feeder.
