

# Question Corner

(Continued from Page B8)

hour or until doubled in bulk. Turn out onto a lightly floured board and shape into rolls or into 3 small loaves. Place in greased pans. Cover and let rise again in warm place until doubled in bulk, about 45 minutes. Bake loaves 20 minutes at 400 degrees. Reduce heat to moderate 350 degree oven and bake 20 minutes longer.

Serve rolls hot, but cool loaves before slicing. Makes about 2 dozen rolls or 3 small loaves. Bake rolls 15 to 20 minutes at 400 degrees.

## White Bread

- 2 tablespoons yeast
- ½ cup warm water
- 2 tablespoons salt
- 1½ cups cold water
- ½ cup sugar
- ½ cup shortening
- 2 cups hot milk
- 5 cups bread flour
- 5 cups hi-gluten flour

Soften yeast in warm water for 5 to 10 minutes. Set aside, undisturbed.

In mixing bowl, combine sugar, shortening, salt and milk. Stir to dissolve melted shortening. Cool to lukew-

arm by adding cold water.

Add softened yeast to lukewarm mixture. Mix well. Gradually add flour, alternating the two kinds. (If hi-gluten flour is unavailable, use all bread flour).

Knead dough on a floured surface until smooth and satiny, about 5 to 7 minutes.

Place dough in a large greased bowl. Turn dough to grease all sides. Cover. Let rise in a warm place until doubled in size, about 2 hours.

With fist, punch down dough in center. Fold sides into center. Turn upside down in bowl. Cover. Let rise again for 30 minutes.

Divide dough into 4 equal parts. Place in a group on a lightly floured surface. Cover with large inverted bowl. Leave covered for 15 minutes.

Shape each part into a loaf. To shape: roll out an equal part on a floured surface, with a rolling pin, to a 14x7-inch rectangle. Starting at narrow end roll up tightly. Seal ends by lightly stretching top layer over ends to the bottom of the roll.

Place in greased 9x5x2¼ -inch loaf pans. Cover with lightweight tea towel. Let rise in warm place for about 1½ hours.

Bake in preheated 350 degree oven for 17 to 19 minutes. Remove loaves from pans immediately on to cooling rack. Brush tops of loaves with melted butter. Cool thoroughly. The bread freezes well if placed in freezer as soon as it is cool.

## Don't Toss That Old Sewing Machine

Are you in the market for a new sewing machine? If so, don't toss your old machine, if it's in good working condition. Especially needed are machines with zig-zag and button hole capabilities. The Montgomery County 4-H Clubs are always looking for good used portable machines that need little or no repairs for 4-H members to use at their sewing club meetings. Your donation is tax deductible, of course, and you can be sure that it will be used with much pleasure.

If you would like to donate a portable sewing machine to 4-H, call Helaine Brown, 4-H Agent, at 489-4315. Or, feel free to drop it off at the Montgomery County 4-H Center, located on Route 113, between Routes 73 and 29, near Skipack.

# THEY HOLD DOWN MORE THAN ONE JOB.

Kubota's mid-sized tractors are very versatile. You'll find them at work on farms, in parks, nurseries, estate homes and even on construction sites.

The reason is simple. Our L-Series tractors come with features you'd expect to find only on bigger, heavier machines. For example, 3-, 4-, or 5-cylinder diesel engines with PTO horsepower from 21 to 40.

Other features you can select include 8x7 or 8x8 mechanical or hydraulic shuttle-shift. A choice of 2- or 4-wheel drive on most models.

A hefty 3-point hitch.  
And more.

So if you're looking for a tractor that can get the job done, whatever it is, you've found it. The Kubota L-Series.
