## box spreaders

**If You Think The Leading Manufacturers Of Web-Type Manure Spreaders Have Exclusive Features - You May Be Wrong! Check Out The All New Gehl Line Of Web Spreaders**

Proven performance features, economical price make Gehl your box spreader choice

"Wide spread" beater paddles for a wide, even spread pattern

Non-corrosive shield provides long-lasting durability

Gehl-Steel sides for strength, durability and easy cleaning

Low profile design for easy loading.

Constant velocity PTO for smooth cornering, less chatter

Two heavy-duty gearboxes for smooth operation, long life

Strong, T-bar apron chains keep the load moving

Gehl-Tuff floor lets your load glide-out with little resistance

**Full 10-year warranty on floor and sides**

**"Wide-spread" beater paddles**  
The beater paddles are positioned into a "rooster comb" pattern to deliver consistent, thorough shredding and spreading. Even the highest heaped loads are distributed in wide, uniform spreads. (More paddles than most competitors)

**Gehl-Tuff floor**  
In cold weather, the slick Gehl-Tuff surface reduces the force needed to break a frozen apron loose from the floor. So your whole load glides out with little resistance. And less apron pull means less wear and tear on drives and apron chains.

**Heavy-duty gear boxes**  
Two heavy-duty gear boxes, one a 90 degree beater drive, the other a two-speed worm box with bronze gear and steel worm, provide efficient power transmission, smoother operation and long life.

**Steel A-frame hitch**  
All Gehl box spreaders are built with a sturdy, heavy-duty, A-frame hitch which ties into the box's axle for maximum strength and durability.

**NOTE! Gehl Beaters Are Factory Balanced To Eliminate Vibration Where A Leading Competitor Does Not. With A Smooth-Running Gehl You Get Longer Box Life And Less Vibration. So Get A Gehl Quality Spreader!**
