UNLOADER® SKID-STEER LOADERS

In tight corners or open feedlots, our Uni-Loaders spell big performance. Sometimes there's simply no substitute for a skid steer loader. With 4-wheel drive, compact size and the ability to turn 360° within their own length, a skid steer loader does what no other loader can do. Particularly if the name on the side is Case. Our engineers have been designing skid steer loaders for years. We know what works and what doesn't. We've amplified chain adjustment, designed extra clean oil systems, and created a top notch safety system.

Case International 1660 Axial-Flow Combine

Several In Stock! Come In & Choose Yours Now. Get An Excellent Year-End Deal!

When it comes to harvesting crops this big crop saver can save more grain than other combines in its size class. It has the muscle to get in and get out fast to make the most of each day of good harvesting weather. It consistently turns out cleaner grain so you can get top market price. Put a 1660 to work and take advantage of these field proven features:
 • Axial Flow Design. Uses a single rotor with fewer moving parts and fewer problems than conventional combines using the cylinder and concave design. Its more gentle threshing action means less cracked grain and top price for every bushel.

• Human-Engineered Cab Provides day long comfort for increased operator productivity
 • 180 hp Turbocharged Diesel and 3 Speed Hydrostatic Transmission Plenty of power to handle soft soils and hilly terrain
 • 1015 Pickup Header Available in 11 and 13 foot widths Hydraulic variable speed drive lets you match crop pickup to ground speed for smooth delivery with minimum shattering
 • 1010 Rigid and 1020 Flexible Cutterbar Direct Cut Headers also available in several widths from 15 to 30 feet depending on model
 • 1000 Series Corn Heads in four to eight row sizes

The 1660 Axial-Flow Combine... a generation ahead.
