Reeds-Creek Bell Gidget

Farm Essentials.

Cows Crops And a Scavenger® spreader The three essentials for higher productivity and a more successful farm operation

Manure is money.

According to ag experts at the University of Missouri, the average dairy cow produces 70 pounds of manure every day—up to 13 tons a year Worth about \$5.00/ton, that equates to \$65.00 per cow a year. If you own a 60-head herd that's almost \$4,000 of free fertilizer And in today's farm environment that adds up to big savings

Scavenger—good to your crops, good to you.

To get the most from your manure you need a spreader to efficiently manage

manure A spreader that works with you A spreader designed and built for today's farming. You need a Scavenger.

Scavenger loads quickly and spreads fast And thanks to advanced engineering, Scavenger spreads all kinds of manure—liquid, semi-solid, pen pack (even frozen)—all year 'round. But more importantly, Scavenger's patented moveable square-auger and Varflo discharge combine to let you choose your optimum rate of application—from top dressing to heavy springtime spreading You get the kind of spreads your crops need—nice and even, without damaging "hotspots" With Scavenger, your crops

receive the essential nutrients to produce better yields.

See Scavenger for yourself.

Don't be misled by claims of other manufacturer's spreaders that say they do it all. See Scavenger for yourself and compare actual capabilities We think you'll find your choice obvious—you'll choose Scavenger®

For a firsthand look at Scavenger, see your local Hedlund/Martin dealer Or for more information write Hedlund/Martin, Inc., A Gehl Company, 741 Kutztown Road, Myerstown, PA 17067 Telephone 717-933-4151

The right spreader no matter what the job.
