

Results

4616 NEW 108-110 Days 2420 GDU's

- Superb yield for maturity, 8% higher than NC+ 4505.
- Wide adaptation from coast to coast.
- Attractive plant type — long slender ears.
- Above average grain quality.
- Good standability and roots.
- Good general disease tolerance.
- Soon to be the standard of 110 day hybrids.

5891 112-116 Days 2545 GDU's

- Exceptional proven yields in 1987 on farm tests — 5891 out yielded all competitors by 10 bushel per acre.
- Superior agronomic ratings for root strength, stalk quality and ear retention.
- Top yields per acre under stress or ideal conditions when population and management are matched to growing conditions
- Healthy plants have good tolerance to leaf and stalk disease prevalent in high moisture, humid environments.
- High quality grain — suitable for food grade purposes.
- A perpetual workhorse in the NC+ mid to full season lineup.

6414 114-118 Days 2605 GDU's

- Last year this "new kid on the block" surpassed almost every hybrid in its class in yield and performance.
- Exceptional plant health — good tolerance to CLN.
- Relatively tall plants have superior stalk quality and standability.
- Plants tolerate heat and drouth stress.
- A very strong yield challenger in this maturity.

7507 116-120 Days 2625 GDU's

- A "must plant" hybrid for silage producers in fuller season areas.
- Exceptional grain/stover ratio makes this one of the best high tonnage silage corns.
- Very tall, leafy plants with high ear placement.
- Can be used for grain at lower populations in full season areas.

Agpro Introduces Superflush Tanks

PARIS, TX — With the move toward total automation in the agricultural industry, Agpro has a flush system designed to make your milking parlor and holding pen cleanup as easy as pushing a button; the Agpro Superflush Tank. These tanks are air operated with hermetically sealed valves and constructed of 3/16-inch plate with reinforcing at critical points.

The Superflush Tanks will fit most existing facilities and with their slimline design, they are excellent for those areas you never thought could be flushed clean. The tanks come totally fabricated and ready to use.

For more information, call or write, Agpro, Inc., Route 7, Box 100, Paris, Texas 75460.

GVM

Where
the Difference
is Reliability

GVM HydraSpray 400 built tough and specifically for the farm and custom applicator.
