DV-300 Bucket System

Here's What A User Has To Say About The DV-300 Bucket System:

Charles M. Shriver (second from left), shown with his wife (far right), his morning herdsman, Tonna Caple, 1986 Carroll County Farm Queen (second from right), and Steve Poulter (left).

SEE THIS UNIT ON DISPLAY AT THE PA FARM SHOW

All are enthusiastic about the DV-300 automatic shutoffs.

Shriver says "This is the best money I've ever spent in my thirty years of dairy farming. We are milking 50 cows in less time than it takes us to milk 42 and the herd has less mastitis than formerly. The somatic cell count has been dropped better than 200,000 in 3 months. The butterfat has increased to 3.9, the highest in seven years. The cows are milked the same way at every milking no matter who milks.

We have had good service from J.B. Zimmerman's."
