

Farm Women Societies

Lebanon Society 14

Lebanon County Farm Women Group #14 met at the Campbelltown U.M. Church for a Christmas dinner.

Fifty-three attended. Carols

were sung, and for the children members had pinatas.

The next meeting will be January 17 at the home of Doris Alger.

York Society 26

The York Green Valley Farm Women Group #26 held their December 13 Christmas party at the home of Ruth Kann. There were 20 members and one guest for the luncheon. Door prizes were won by Betty Bertolette and

Naomi Cooshner. Those who are going to the state convention are Athena Beshore, Mabel Miller and Ruth Traveer. The next meeting will be held at Bonanza Restaurant at the Valley Green Mall, January 17th, 12:30 p.m.

Lancaster Society 26

Lancaster Farm Women Society #26 met at Greenfield Inn for a Christmas party. After a delicious

meal, members revealed secret pals. A short business meeting followed.

APPLICATIONS:

- Poultry houses
- Dairy barns
- Milking parlors
- Storage buildings
- Greenhouses
- Office areas
- Confinement buildings
- Livestock buildings
- Processing plants
- Warehouses
- Machine shops
- Homes
- Churches

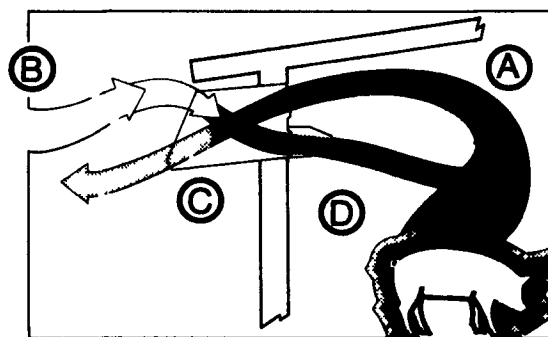

Fan carries a five-year warranty and features:

- Sealed chrome steel ball bearings
- Totally enclosed motor, special moisture resistant silicone treated
- Displaces 24,000 cubic feet of air per minute (CFM)
- Solid state infinite speed controls
- Uses less energy than 40W bulb at low-speed.

- Easy installation, just mount and plug in 32" cord. Completely assembled (except blades)
- All metal construction - 60" diameter blade sweep

Cut fuel costs as you keep livestock confinement areas warm and dry...

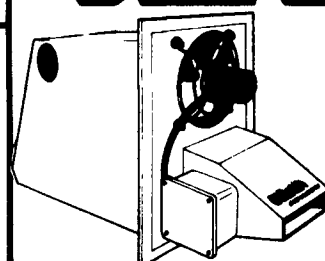

Change the air, but keep the heat.

- (A) Exhaust fan pulls warm, moist, foul air into the heat exchanger core.
- (B) Inlet fan pulls fresh outside air into the heat exchanger core.
- (C) Corrugated thermal grids transfer heat from stale to fresh air.
- (D) Fresh air enters the room within 65-70% of the building temperature. Only a 110-volt outlet is needed.

Simplicity is the Del-Air Heat Exchanger difference. Installation is as easy as a normal exhaust fan. Conserving animal heat reduces, or eliminates the cost of supplemental heat. Cleaning takes moments. Automatic defrost prevents freeze-up. Three models available to fit specific confinement needs. Ask us for details soon.
