The advisory board includes Jay Irwin, Lancaster; Dr. John

Schwartz, Lancaster; Dr. Forest Muir, University Park; John Hoffman, Harrisburg and Mike Sheldon, Harrisburg.

South Central Holstein Breeders Meeting

STATE COLLEGE (Centre) — All Pennsylvania Holstein breeders from the South-Central District are invited to attend a meeting to discuss Holstein concerns on the State and National levels. The meeting is scheduled for Friday, January 27, 1989 beginning at 10:00 a.m. It will be held at the Sher-

aton Inn, Harrisburg-West, located at I-83 and the PA Turnpike Exit 19, New Cumberland, Pennsylvania.

There will be a chance to discuss issues of the Pennsylvania Holstein Association and the National Association. We will have PA Holstein officers and staff available to answer questions as well as John Cope, National Holstein Director from Pennsylvania.

It will be an opportunity for Holstein breeders to discuss concerns and interests and help improve Holstein programs in Pennsylvania.

For more information on this meeting, contact the PA Holstein Association, 839 Benner Pike, State College, PA 16801 - 814-234-0364.

PROBIOTICS -

Nature's way to herd health and profits

Pennstar Veterinary Service of Quarryville, Pa. and Conklin Company of Shakopee, Minnesota will combine to present an educational and promotional meeting on the need for and use of natural probiotics in the dairy ration to increase milk, fat, protein, and profits, and improve overall herd health.

Place: Solanco Sr. Citizens Center - next to the Hoffman building at the Solanco fairgrounds

Time: Friday, Feb. 3, 7:30 PM

There will also be information presented on the use of "natural" hay and silage preservatives in place of the commonly used "acid" preservatives.

Speakers: Ron Buffington, Dublin, Ohio
Boone Logan, Harrodsburg, KY

Patz Gutter Cleaner

Fast Facts:

- Durable Patz hook-and-eye link chain allows easy maintenance. Progression forging builds extra strength in hook-and-eye link contact points. Final heat treating increases hardness, strength and wear resistance.
- Choice of two link sizes to match gutter length.
- Four-tooth sprocket drives every link. Each sprocket tooth drives each link behind the hook — the link's thickest and strongest point.
- Flexibility for various layouts.
- Select 2" steel angle flites for solid manure or 4" high flites for slurry manure. Flites are welded to Patz links.
- Three drive unit sizes match your gutter length and allow expansion.
- Corner wheel top-and-bottom flanges guide the chain around the corner. Corner wheel assemblies remove easily for service without concrete breakout.
- Automatic chain tightener.
- Heavy-gauge steel slide with steel center beam for added strength.
