

Nobody builds a more accurate planter than the Seed Boss®

No matter whether you plant conventional, minimum-till or no-till, we'll match our Seed Boss® planter against any other brand. For accurate seed depth, spacing and emergence.

Seed Boss is built for accuracy under a wide range of field conditions. Our low, constant air pressure system insures consistent seed drop with a wide variety of seed sizes.

Double disk openers with walking beam dual gauge wheels provide

uniform seed depth. Plus the extra heft and strength built into every Seed Boss frame means more stability at higher speeds and under rougher conditions.

Come in today and experience for yourself the quality and value built into every Seed Boss. It's why a lot of farmers believe it's today's most accurate planter.

The Seed Boss planter gives you accurate seed depth and spacing whether you're planting conventional, minimum-till or no-till.

Feel the quality. Experience the value.
