"Consider The Concrete Advantages"

The summer of 1988 will be remembered for the many hot, dry, days. These high temperatures damaged a lot of stored corn and forage in structures that have a thin wall and do not reflect heat. You can avoid this heat damage with a poured concrete SOLLENBERGER SILO.

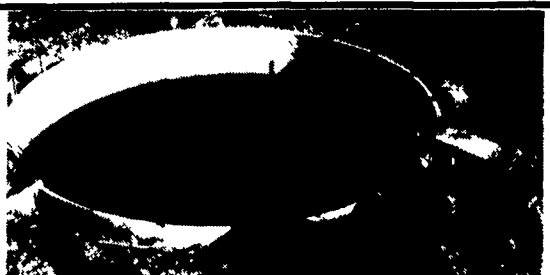

FOR BOTTOM UNLOADING:

- * LAIDIG 43 - Ideal unloader for high moisture ground ear corn or high moisture shelled corn.
- * LAIDIG 98 or 198 - The bottom unloader for all forages.
- * "LAIDIG GAVE BOTTOM UNLOADING A GOOD NAME."

SLANT BACK J BUNK H-BUNK
