

Jehle To Speak At FARMER Fundraiser

CAMP HILL (Cumberland) — Philip Jehle, director of the Washington office for the Commonwealth of Pennsylvania, will be the guest speaker at the ninth annual statewide fundraiser for FARMER on April 20 at the Hershey Country Club in Hershey.

FARMER, Farmers Allied for Responsible More Effective Representation, is the political action committee of the Pennsylvania Farmers' Association. Proceeds from the fundraiser will be used to support legislative candidates of all major political parties in state elections. FARMER is a voluntary, bi-artisan organization.

As special assistant to the Governor for federal-state relations, Jehle is Governor Casey's representative with top federal offi-

cial, members of Congress, and other states' Washington offices. He also advises the Governor on federal issues of concern to the Commonwealth.

Beginning his Washington, D.C. career as an attorney practicing civil and criminal law, Jehle has served as counsel to Senator Hubert Humphrey's subcommittee on retailing, distribution and fair trade practices, as chief counsel of the U.S. Senate Business Committee, as Washington representative and associate general counsel of the National Association of Retail Druggists, and as vice president of Smith Kline Beckman's Washington office. He was appointed to his present position on April 1, 1987.

The FARMER fundraiser will start with a social hour at 6:00 p.m. followed by a banquet at 7:00 p.m.

- Available for most popular tractor sprays coupe and combine cabs

Manufactured by
DUTCH INDUSTRIES

1989 BARN PAINTING Latest Developments

1. **PREPARATION** - High volume water blasting at 1,000 lb. pressure re-surfaces barn siding into a smooth (like new) appearance!
 - a. Performed by professionals quickly at reasonable cost.
 - b. By yourself with your own or rented equipment.
 - c. Or other more conventional methods.
2. **APPLICATION** - To insure better adherence to this super prepared surface, use the best fine bristle brush in four directions to evenly distribute the recommended mil thickness of seal coat coverage.
3. **SPECIALIZATION** - Every barn is different but generally it's best to use a high quality mildew resistant product, specially formulated to meet the requirements of this partially weathered wood that was and will be weather stressed.
