

Twelve-Row Planter Hugs Contours, Folds For Easy Transport

MILWAUKEE, WI — The biggest unit in the Deutz-Allis Model 385 planter line now offers a new design for improved tracking of ground contours and folding for transport.

Deutz-Allis first introduced its rugged 12-row planter in 1987, says Tom Stadtmueller, Deutz-Allis implement marketing manager.

The planter row features a frame that's hinged in the center to allow six units on either side to pivot and follow the ebb and flow of the land. A 3x4-inch front frame permits fertilizer hoppers and other equipment to be easily bolted on.

A unique folding device also sets it apart from other planters of

its size. "The planter is designed to swing from field to transport position without unhitching the tractor," Stadtmueller says. "Transport wheels are positioned so the unit can be towed endwise. Now operation of this folding device has been simplified so that it's even easier to switch the planter from one mode to the other with tractor remote

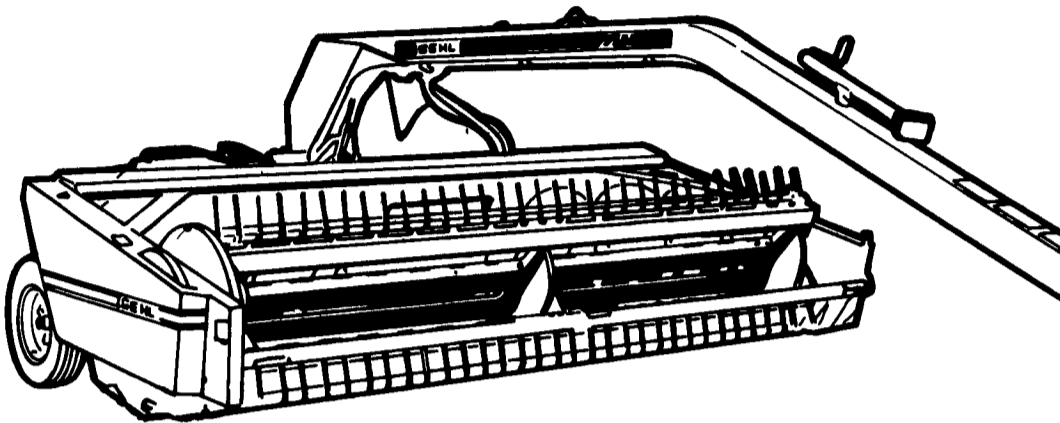

hydraulic valves."

All Model 385 planters, also available in four-, six- and eight-row versions, give the operator the option of applying granular or liquid fertilizer, herbicides and insecticides in one pass over the field, he says. The Model 385s offer a choice of two sophisticated seed monitoring systems and row spacings down to 15 inches.

Then there's the exclusive Quadra-Disk planting system that permits total seed depth control regardless of field conditions. The Quadra-Disk system, available with either air singulation or plate-type metering, adapts to a wide range of tillage practices, he says.

Plate planting units place seed with great accuracy.

GEHL

109 Inches of Quality Conditioning

A Gehl center-pivot, swing frame mower conditioner gives you high capacity cutting and conditioning with outstanding maneuverability. Two models are available; the 2240 with 12'6" cutting width, and the 2270 with 14'6" cutting width. Both models feature wide, 109-inch rubber conditioning rolls with intermittent tread design to deliver thorough, uniform conditioning. These machines pivot at the center of the frame for easy header positioning, reducing cutting time and lowering fuel costs. And total hydraulic drive means smooth operation and low maintenance. Put a Gehl swing frame mower conditioner to work for you today!

WAIVER OF FINANCE UNTIL SEPT. 1, 1989 on hay and forage equipment

Stretch your Gehl equipment purchase dollars with Gehl Finance. Talk to your participating Gehl dealer about our current programs:

Waiver of finance until Sept. 1, 1989 on hay and forage equipment	OR	LOW APR* 12 month term	0%
Waiver of finance until July 1, 1989 on all other equipment		24 month term	8.5%
		36 month term	9.5%
		48 month term	10.5%

* Certain restrictions may apply. See your participating Gehl dealer for complete details. Gehl Finance reserves the right to interpret, modify or cancel these programs at any time without prior notice. Gehl Finance is not available in all states or provinces.

New!

Don't Just Cut Grass!

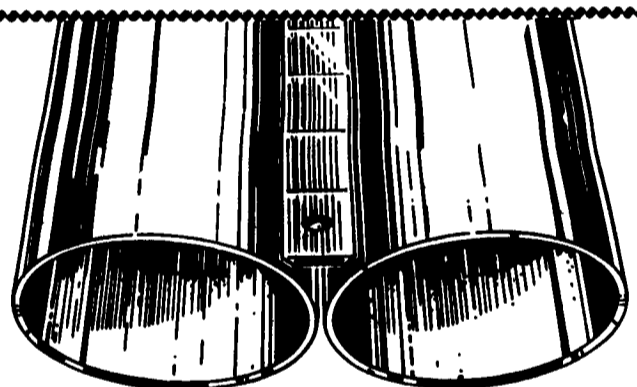

Get 10 times the work year-round from your mower with the fast, easy to use, power raise and dump Auto-Dump™ loader! Changeover in minutes with no additional hydraulics.

Put more versatility in your mower by calling or writing:

CUMMINGS & BRICKER INC

Go after pests with both barrels.

Ravap® E.C. kills and controls.

Use Ravap E.C. insecticide/larvicide. Ravap combines the quick knockdown of Vapona® with the residual killing power of Rabon®. That's double-barrel protection. Ravap kills horn flies, lice and ticks instantly, and provides residual fly control in and around buildings.

Ravap mixes easily with water for spray, or oil for back rubbers. No special application equipment necessary. No pre-slaughter withholding period.

For a double-barrel defense against pests—quick kill and residual control—use Ravap E.C.
