CHORE-TIME®

CHORE-TIME FEED BINS

BIG SAVINGS!

The feed bin is the very heart of any feeding system. If the bin lets you down, the system quits.

That's why we put so many quality features into our complete line of feed bins - which includes 6-foot diameter steel or polyethylene (great for H.M. corn), 6-foot, 7-foot, and 9-foot models. All are available in several capacities - so you have a wide selection of bins to fit your needs

Here are just a few of the quality features that make our bins such an outstanding buy:

- Sturdy Ladder System
- All Bin Seams Are Double Caulked
- Choice of 16 or 25 Inch Hopper Opening
- All Galvanized Steel Parts

We Stock Truckloads Of Chore-Time Bins & Miles Of Chore-Time FLEX-AUGER®

We Will Assemble And Deliver Bins To Your Farm!

Get The Complete System - Feeding, Ventilation, Watering From Us, Your Authorized CHORE-TIME® Master Distributor

WIC

REAL PERFORMANCE AT WORK

WIC'S SOLUTION FOR CARRYING AND UNROLLING ROUND BALES. (Patent pending)

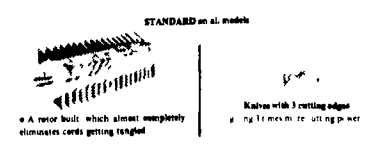

MANUAL GRAIN FEEDER WITH WEIGHT CONTROL
Capacity: 8 bushels

The bedding chopper WIC is successful in its field rapidly growing indispensable for modern farmers.

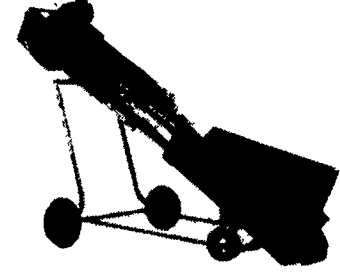

• In only one operation it chops and spreads straw or hay. It then has a built-in rubber flange which keeps it clean. It will facilitate unrolling bales and will clean better performance than any other chopper.

THE GAS BEDDING CHOPPER is the most popular in the market. With a simple operation and a great maintenance record, WIC gives you the assurance of maximum performance when utilized. Motor 5.7 10 cv 4 cycles.

For information or free demonstration write or call

- Horizontal or inclined
- Sturdy pintle chain (test: 8500 lbs. with rubber flight (D-662))
- Available wheel system for easy handling
- Supported by adjustable legs
- Hopper for inclined or horizontal conveyor

The New Silage Wagon has a hydrostatic drive and a monoshell body of high gauge steel for use with corn silage or haylage. Available in 4 sizes, with 4 unloading options, one or two side, top unloading and front unloading. For literature or information on your nearest dealer, write or call

Wic low profile allows excellent rear visibility for better control. Because Wic load at the rear & unload from the front, the need for inside agitation is eliminated in most operations. Also because liquid is forced through a line over the top of the spreader the need for leaky valves is totally eliminated.
