

(Continued from Page A3)

Clayton Yeutter, Sec. of Agriculture, said the USDA would be in a better position to make a recommendation on extending the 1988 Drought Assistance Law after release of its official projections tomorrow. Governor Kay Orr of Nebraska appealed to Secretary Yeutter to declare the entire state

eligible for Federal Disaster assistance. July what closed out today's session 3/4 cent higher at \$4.14-3/4 while the September and December options each gained 1 cent.

ACRES CATTLE UPDATE: Live cattle and feeders ended today's session mixed with living cattle settling from 35 lower on the spot option to 7 higher on the December while feeders settled 20 higher on the spot option to 43 lower on the September. Sales were linked to long liq-

uidation and continued anticipation of an increase in numbers from late May into the summer. Losses were limited by ongoing firm cash market fundamentals after reports of active fed sales at steady prices and stronger boxed beef movement at higher prices. Traders today took on the attitude that all good things must come to an end and played the safe side of the market. The only plus part of feeders today was the spot option which gained 20 on another uptick in the CME Index while the other months slid lower.

CME FEEDER CATTLE SETTLEMENT PRICE - 5/08/89 - \$76.23 up \$.28.

ACRES NEXT DAY OUTLOOK: CASH - steady FUTURES - steady to weak.

ACRES HOG UPDATE: Live hog futures closed mixed today, gaining from 10 to 22 points and losing from 10 to 20 points. Selling was tied to the steep premium futures hold to cash prices and expectations for cash market weakness with buying tied to spillover from the belly pit. Bellies closed from 153 to limit higher this afternoon with buying attributed to ideas that bellies had reached their bottom and were due for a technical correction. Further strength was tied to follow thru

from yesterday's limit advances. Slaughter today was estimated at 320,000 which compares with last Wednesday's 325,000 and 308,000 last year.

PUT YOUR FARM DOLLARS TO WORK

You could lose your farm.

Failure to have Workers' Compensation Insurance can cause you severe financial hardship.

IT'S THE LAW.

If you have employees, you must have Workers' Compensation Insurance coverage.

IT IS THE LAW!

So, an employee suffers a work related injury on your farm.

You don't have the proper coverage.

You will be fined!

You will pay the employee's medical bills.

You will pay the employee's lost wages.

Medical costs and lost wages could go on for a lifetime.

The financial burden could destroy your farm.

Without Workers' Compensation Insurance the employee can take civil action against you, causing you and your family greater financial hardships.

Yes, it COULD cost you the farm,

mainly because you are violating the law.

GET PEACE OF MIND . . . JOIN A GOOD GROUP PLAN.
