

Illinois To Host National Junior Polled Hereford Show

KANSAS CITY, MO. — "Standing Tall and Proud" is the theme the Illinois Polled Hereford breeders have chosen for the 16th Junior National Polled Hereford Show they'll be hosting. An exciting array of activities is lined up for the July 23-27 event to be held at the Illinois State Fairgrounds in Springfield. Youth and their families from all parts of the country will gather to compete, to learn, to meet new people and to renew old friendships.

The Polled Hereford show will

be the focus of the week, with heifers, cow-calf pairs and steers to be shown July 26-27. Evaluating the cattle will be lead judge Wayne Haygood of Indian Mound Ranch, Canadian, Texas, and associate judge Robert Botkin of Botkin Polled Herefords, Lexington, Ky. Officiating the showmanship competition will be Dr. Doug Parrett of the University of Illinois, Urbana.

Youth in friendly competition will be spotlighted throughout the week in the Illustrated Speech

Contest, Team Marketing Competition, Speech Contest, Beef Bowl and Judging Contest. They're also making preparations for their state exhibit, scrapbook, photo and art contests. In addition, the winners of the coveted National Junior Merit and Lewis Memorial Awards will be announced, recognizing the overall leadership and achievement of the nation's

most outstanding junior Polled Hereford breeders.

A series of "Hands-On" workshops will give the youth a chance to pick up useful information. Planned are a session on balancing feed rations, a demonstration of ultrasound techniques and a workshop on relating pelvic area to calving difficulty. The organizers haven't forgotten the need for just

plain fun, though, and have included a junior dance, barbecue, fun rodeo and awards banquet.

For more details on the 16th Junior National Polled Hereford Show, contact APHA Youth Director Annette Forst, 4700 E. 63rd St., Kansas City, Mo., 64130, (816) 333-7731.

Fermenta Honors Administrator

SOMETHING TO
CROW ABOUT....

MENTOR, OH — Miriam DePriest, area office administrator for the Southern Area Office (Marietta, Ga.) of Fermenta ASC Corporation, was the recent recipient of an "Excellence Recognition Award".

The "Excellence Recognition Award" program was established to recognize unusually significant "one-time" accomplishments that

positively impact the Company. Recipients of this award are determined by the president, following recommendation of the individual's supervisor and consultation with the president's staff. A personally engraved "Ingredients for Excellence" plaque was presented to DePriest by Richard L. Urbanski, president and chief operating officer.

A BROKEN HYDRAULIC HOSE CAN COST YOU HUNDREDS OF DOLLARS...

... in lost or damaged crops. When there's work to be done in the fields it's important to keep your farm machinery on the job. When there's a breakdown you can't afford to wait for a new hose assembly to be shipped from the factory.

But it doesn't
have to...

WE MAKE HOSE ASSEMBLIES WHILE YOU WAIT

... assemblies which are exactly like the original and better! To put your equipment back to work in the fields fast. You don't lose valuable time, don't lose crops.

Deutz-Allis Hay Equipment.

IF YOU HAVEN'T SEEN IT, YOU HAVEN'T SEEN IT ALL.

You're looking at "world class" hay tools, with unique advantages.

See our HD square balers. A wide pickup feeds the rugged plunger that glides on ten sealed roller bearings at 100 strokes per minute. Makes dense, uniform 14 x 18-inch bales. Knotters are gear driven, eliminating chain noise and wear.

See our GP series round balers. Fixed chamber steel rollers compress material from the outside in... to lock in nutrients and resist moisture. The 67-inch wide hydraulic pickup gathers all the windrow so you get all the hay in the bale.

See our Deutz-Allis mowers. SM disc mowers have rotating discs with paired knives that

overlap from disc to disc for uniform mowing even in wet, tangled and down crops. Also available with a conditioner in three sizes.

And check out our drum mowers, including a front-mounted model to let you cut an extra swath and cover acreage in half the time.

See our rotary rakes and tedders. Rotary rakes carry and fluff hay into the windrow instead of beating, bunching and rolling it. Rotary tedders gently spread-out or fluff the hay for faster drying. Our combination rotary tedder/rake easily changes from raking to tedding.

Don't buy another piece of equipment until you've seen it all. Stop in soon.
