The one spreader for the two spreader farm

Spread liquids, semi-solids, solids, pen-packed, even frozen manure. A Gehl Scavenger II manure spreader does the work of two spreaders for the price of one. It's built for efficiency, with a heavy-duty square-tube auger that works harder than conventional round augers. The auger powers up and down hydraulically to prevent bridging and cut through winter freeze-ups. Variflo front, right-hand discharge gives you complete application control.

Simple Design....Easy Operation

If you're looking for extra-easy operation, the Gehl Models 1310 and 1710 fixed chamber round balers can't be beat. No other balers are as easy to operate. The pickup feeds material directly into the baling chamber, so these balers easily handle all crops and conditions. Incoming material gently tumbles inside the chamber, gradually forming the bale. The operator simply keeps an eye on the pressure gauge; when it reaches the factory recommended psi the bale is complete. Stop by your Gehl dealer today for more information on these easy-to-operate balers from Gehl.

And the Even-Flow third beater plus a wide 23-1/2-inch cross conveyor give you the speed and capacity you're looking for. Available in five sizes. Stop in and look one over today!
