 We Have The Answers!

TENSAR POLYGRID

POLYGRID RF - Ranch Fence Lightweight easy to handle
 Polygrid RF has no sharp wires that can injure your horses. RF is ideal for permanent or temporary corrals, sick pens, calf hutches or paddocks. Black durable RF blends beautifully with its surroundings and satisfies a wide variety of building and fencing needs around your ranch or farm.

POLYGRID BB - Bird Barrier Polygrid BB is specially designed to keep pesky sparrows and starlings that spread disease from farm to farm away from your hogs or poultry. BB is a long lasting cost effective alternative to conventional wire and other materials that rot, rust or corrode. You'll find dozens of other uses for BB from trellis construction to small animal pens.

POLYGRID GS - Ground Reinforcement During wet weather farm yards, gateways, driveways, work yards and livestock areas can become impassable. But with Tensar Polygrid GS reinforcement grid under your gravel, even the muddiest areas stay firm year round. GS reduces the frequency of regraveling. It "locks up" crushed rock and other fill materials so soft ground won't give way even under daily use and heavy stress. POLY GRID GS also can be used as a lightweight fence.

POLYGRID SF - Sunshade/Snow Fence Heat stress and intense sunlight reduces feed efficiency in livestock and can interfere with normal growth in certain horticultural crops. With Polygrid SF nurserymen, livestock producers and dairy men can keep productivity high by effectively reducing temperatures by up to 15 degrees. And in the winter months SF will minimize blowing snow and control drifts.

POLYGRID WB - Windbreak Both crops and livestock can be damaged by wind. Polygrid WB is specially designed to cut wind velocities up to 50%. This reduces wind chill on your livestock and improves feed efficiency. WB protects citrus, vegetables, fruit and other wind sensitive crops. Light weight WB is ideal for constructing protective calf hutches, temporary pens, gateways and shelters.

Also Available Tensar Porous Landscape Fabric. Keep Weeds Out Let Water In. Keeps Mulch From Disappearing Into Soil, Reduces Mulch Requirements.
