GOOD HOGS 45.00-47.00.

Lyng Award Recipients Honored

ARLINGTON, VA — Two recipients of the Richard E. Lyng Award were named at the fifth annual meeting of the National Dairy Board May 16-18.

Eugene C. Meyer and Joseph J. Westwater were honored during a dinner Wednesday, May 17 for their outstanding years of service to the dairy industry.

Meyer, former managing editor for Hoard's Dairyman, had been a member of the editorial staff for 41 years. "Known for his editorial column, Meyer was a long-time crusader for greater advertising and promotion of dairy products. His editorials had a major impact on the switch from voluntary to mandatory contributions from dairy farmers," Chairman of the Board, Ivan Strickler said.

Westwater has also had a commitment to the dairy industry and the promotion of dairy products for more than 30 years. Named as the first Chief Executor Officer of the National Dairy Promotion and Research Board, Westwater was the "right man for the job," Strickler said. "Joe's long-term experience with the dairy industry cou-

pled with his knowledge of the political process and the workings of the U.S. Department of Agriculture enabled the Board to hit the ground running."

The Richard E. Lyng award was created by the National Dairy Board to recognize the many contributions to and support of the dairy industry by former Secretary of Agriculture, Richard E. Lyng. Recipients of this award fall under three main criteria:

1. Directly served the dairy industry or has, through public service or other activity, been supportive of the dairy industry.

2. Has directly, through his or her career activity, participated in the promotion of milk and dairy products, or

3. Has contributed to improving the image of dairy products with the general public.

No spreader on the market can match the versatility of Scavenger.™

A new look in spreader design.

More than 7 years ago, Hedlund/Martin introduced the Scavenger—a manure spreader based on an entirely new technology.

Gone were unreliable apron chains and "rooster comb" beaters. Gone were leaky endgates. Gone were the old-fashioned boxy shape. In their place—a unique patented square auger and side-discharge expeller reel. And with its welded Unibody construction, Scavenger looked like nothing before.

But even though it looked unusual, Scavenger worked. Scavenger proved itself where it counts—in the fields of farmers all across America.

And like all successful advances in technology, Scavenger invited a slew of competitors. Today, a wide variety of farm equipment manufacturers sell a Scavenger-like machine.

Unmatched performance.

While some of these look-alike units are perfectly adequate for certain manure-spreading application, none can match Scavenger's overall versatility. Scavenger spreads all kinds of manure—liquid, semi-solid, pen pack (even frozen)—all year 'round. In even spread patterns up to 50 feet. All in one machine.

So when you find it's time to purchase a new spreader, take a hard look at your choices. Don't be misled by spreaders that claim to do it all. Compare actual capabilities. We think you'll find your choice obvious. You'll choose the spreader with unmatched performance—Scavenger.

See for yourself.

For a firsthand look at Scavenger, see your local Hedlund/Martin dealer. Or write: Hedlund/Martin, Inc., A Gehl Company, 741 Kutztown Road, Myerstown, PA 17067. Telephone: 717-933-4151.

BARN SPRAYING IS OUR BUSINESS

WE WHITEWASH OVER 1,000 BARN A YEAR USING ADVANTAGE FARM WHITE

- DRIES WHITE • NO WET FLOORS
- IS COMPATIBLE WITH DISINFECTANT AND FLY SPRAYS

LET AgTec HANDLE ALL YOUR SPRAYING NEEDS

SPECIAL PRICE

give your vegetables wrap around protection

AgTec's rotating vegetable head gives complete coverage with wrap around protection. 190 MPH Air Stream carries mist-size droplets that penetrate and cling, even to the undersides of leaves. Without leaving the tractor seat you can rotate the head 270° to spray with the wind and adjust the deflector for swaths up to 60 feet, with AgTec low volume efficiency you'll reduce chemical and fuel costs, and spray more acres a day. The rotating head is available on 3 pt. hitch and pull-type AgTec sprayers with PTO-drive. See us today for a demonstration.
