

See The Leader In Round Balers

At Your Ford New Holland Dealer

**Less leaf loss.
And better bales.**

New Fastnet™ Net Wrap system, an optional tying method for selected New Holland round balers, gives better looking and better weathering bales. Just two plastic net wraps do the job of 12 to 15 twine wraps per bale. And they do it better too, because bales are turned fewer times. That means less leaf loss and better quality hay. Now you can net more hay—and more profits, too. Stop in today.

**Now pick up
more hay.**

New wide pickup, available on Models 848 and 853 New Holland round balers, lets you handle wider windrows. So you pick up more crop instead of leaving it in the field. And the flared sides mean smoother bale ends for sharper, better-looking bales. Stop in today for a look at the wide ones.
