

LAND PRIDE®

Quality equipment from a quality company.

3-SPINDLE GROOMING MOWER 60" and 72"

The Land Pride® Grooming Mowers are the new standard in finishing mowers. Both the Flat Deck model and Air Tunnel model combine superb mowing quality, structured strength, and operator convenience.

Configured with four wheels, two wheels, or two wheels and roller, these mowers hug the turf for a clean, even cut. A floating hitch and top link help

them follow contours. Hookup is easy with clevis hitch and adjustable hitch blocks.

The all-welded tubular steel chassis absorbs shock loads instead of the deck. Choose the standard Flat Deck model, or for better suction and discharge the Air Tunnel model.

TILLERS

34" through 74"

These premium tillers offer superior features and design. Both the 10 and the 15 series feature heavy-duty cast iron gear boxes, #80 drive chain, 15" rotor swing diameter, profiled stamped chain cover and rear deflector; these tillers offer features and workmanship second to none.

Our heavy-duty 25 and 35 series tillers offer the ruggedness needed to handle the big jobs. Both offer heavy-duty formed plate A-frame, forged hitch blocks, ductile iron worm gears, and #100 chain, which together means maximum output and efficiency.

REAR BLADES 48" through 96"

The four series of Land Pride Rear Blades provide you with a choice of 10 different models. Whether it's a hobby blade for a 20 horsepower tractor or a heavy-duty model with angle, tilt and offset, you'll find a Land Pride blade to match your tractor — and your job.

Quality designs and rugged construction are evident throughout the rear blade line. Each blade has a heavy-duty rolled moldboard to keep material flow-

ing smoothly. And all Land Pride blades have replaceable high-carbon, heat-treated, cutting edges. They are reversible on the 15, 25, and 35 series for an even longer life.

Land Pride Rear Blades are available with a full range of options, including skid shoes, side plates, gauge wheels, and on the 35 series — a hydraulic cylinder to adjust offset on-the-go.

PULVERIZERS

48" through 84"

Land Pride Pulverizers have the weight you need to scarify, level and pulverize — all in one pass. The flame-hardened $\frac{1}{2}$ " teeth, placed on two staggered rows, aggressively rip into the ground. The heavy-duty H-beam design — 10" on a series 15 and 12" on a series 25 — grades and levels behind the scarifying action of the teeth. At the back is a roller which is durably constructed of a $5\frac{1}{4}$ " x $\frac{1}{2}$ " wall round tube with steel spikes to pulverize the soil. The spikes are spirally spaced to provide a spike every $\frac{1}{4}$ " over the working width of the tube.

Both the 15 and 25 series are available with single or double rollers and also with a cast notched roller.

Land Pride's added value includes features like: self-aligning, cast 1" bearings with triple lip seals, heavy-duty down pressure springs, and formed plate A-frame on the 25 series.

LANDSCAPE RAKES

48" through 96"

A rugged landscape rake from Land Pride is a versatile addition to any landscaping arsenal. With 11 models in four different stages, there is a Land Pride rake to meet your needs.

Rake uses include: clean-up of roots, rocks and other debris prior to seeding, spreading and distributing topsoil and crushed rock, general grooming and soil preparation.

Land Pride rakes feature high-carbon, spring-steel teeth and heavy-duty A-frames for a long life. To fine tune performance, options like gauge wheels and flip-down grader blades are available.

ROTARY CUTTERS

48" through 120"

With 3 series and 10 models to choose from, you'll find a Land Pride Rotary Cutter to efficiently match your acreage tractor horsepower, and budget. From our 4', 5' and 6' standard duty series 15 to our 10' heavy duty series 35, Land Pride Rotary Cutters offer exceptional features, durability, and value.

Our 3-point standard model, the series 15 features 4', 5' and 6' cutting widths, one piece reinforced deck, tail wheel, rock jumper, flex hitch, and free swinging blades. Our medium duty series 25 adds deck reinforcement, a 10' width, and a pull-type option. The heavy duty series 35 offers our heaviest deck, a 7' model option, double spindle blades on the 10' model, and choice of tires.

SEEDERS

48" and 72"

The Land Pride Solid Stand® Seeder is designed for accurate interseeding and new seeding of grasses. The three-way soil-to-seed contact system provides greater germination and emergence with the solid advantages of a full width seeding pattern. First, the PTO driven knives slice into the ground creating slots to receive the seed. The proven fluted seed cups then precisely

meter the desired amount of seed in a broadcast pattern. Second, easily adjustable double torsion trowler tines agitate the seeding surface to help promote soil-to-seed contact. Third, solid cast iron packer wheels finish the job by pressing and firmly packing the seed, eliminating air pockets for proper germination. Being able to incorporate an aerating procedure into an interseeding program helps eliminate the need for a separate pass, while promoting a more accurate renovation of established turf.

BOX SCRAPERS

42" through 84"

Land Pride Box Scrapers are built rugged for a long dirt-moving life. With the 4" square tubing main frame and $\frac{1}{2}$ " x 6" heat-treated, reversible cutting edge, these box scrapers are designed with the features you need.

The ruggedly-constructed Land Pride Rollover Box Scrapers offer a wide variety of dirt-working possibilities. Position the moldboard forward (as shown) to move dirt ahead, or face it rearward in order to backfill. Or, use the scarifier shanks to rip by facing the moldboard up and the shanks down. Pull one handle to switch moldboard position.

Land Pride Retractable Box Scrapers are engineered to match up with today's industrial tractors. Both high and low models are available.
