Trading activity continued light and disappointing. Offerings were usually readily available on most items. Buyers were cautious. Some interest was developing for promotions, but expectations were dulled because of the time of month. Current promotions were hard pressed to even meet regular week's movement.

**Delmarva Broiler  
Fryer Market**

Wednesday, August 16, 1989

Movement of ready to cook whole fryers was no better than fair. Supplies of 3 pound and over sizes were fully adequate and offered at highly competitive prices but buyer interest was light and cautious. In the parts complex, supplies of cutlets, whole breasts, and wings were adequate, legs were fully adequate and leg quarters were ample and slow to clear. Less than trucklot asking prices were lower at 55-64 cents. Live supplies were adequate. Average weights were heavier than desired. Today's slaughter schedules were heavy. The trade sentiment was weak and unsettled.

**National Egg  
Market**

Wednesday, August 16, 1989

NATIONAL EGG MARKET - AT A GLANCE: The market tone ranged steady to firm with some cautiousness noted. Movement was generally about moderate with most interest centering around nest run eggs. Supplies were held with confidence and were irregularly available. Breakers were resisting higher asking prices and in some instances reduced schedules in an attempt to avoid building higher valued inventories.

**New York &  
Philadelphia Eggs  
Frozen Report**

Tuesday, August 15, 1989

Prices continued to trend higher. Buying activity was generally limited to immediate needs as traders adopted a wait and see attitude. Raw materials were confidently held forcing breakers to readjust their schedules and thinking. Floor stocks were for the most part in good balance to handle present needs.

**Eastern PA  
& New Jersey  
Poultry Report**

Wednesday, August 16, 1989

Prices for light type hens were generally unchanged. The trade sentiment was steady. Heavy hens traded at 14-16 cents at the farm, producer loaded. Offers from producers increased over prior week and were adequate for current needs. Processors operated full schedules and are mostly full for next week, too. Demand for canner pack product was fairly good and in good balance with supplies.
