

# USDA Announces Common Provisions Of 1990 Farm Programs

WASHINGTON, D.C. — Common provisions of the 1990 farm programs were announced today by Under Secretary of Agriculture Richard Crowder. They include limited cross compliance for wheat, corn, sorghum, barley, upland cotton and rice.

To be eligible under the cross compliance provision for price support loans, purchases or payments, the acreage planted for harvest on a farm may not exceed the acreage bases for these crops.

Limited cross compliance will not be in effect for 1990 crops of oats and extra long staple (ELS) cotton.

Other common program provisions applicable to the 1990 crops of wheat, feed grains, upland and ELS cotton and rice include:

- Offsetting compliance will not apply. This means that eligibility for a program payment and a loan for a program commodity on a farm will not be affected by actions taken to that commodity on another farm.

- Production of nonprogram crops on land idled under the various acreage reduction programs will not be permitted.

- Grazing of land designated as conservation use (CU) acreage for payment under the 50/92 and 0/92 program provisions of the upland cotton, rice, wheat and feed grain programs and acreage conserva-

tion reserve (ACR) will be permitted, except during a five-consecutive month period between April 1 and Oct. 31, 1990, as established by the state Agricultural Stabilization and Conservation (ASC) committee.

- Haying, during the same period, of acreage designated as CU and ACR will not be permitted unless the state ASC committee determines that haying will not have an adverse economic effect in that state.

- In the event of a natural disaster, haying and grazing of land designated as CU and ACR may also be permitted during the prohibited five-month period in those counties which are determined to be adversely affected by disaster conditions and approved by the Commodity Credit Corporation.

- The increase of any crop acreage base (CAB) with a corresponding downward adjustment in other CAB's on the farm generally

will not be permitted. However, adjustments in CAB's will be considered when producers need to change cropping practices to carry out conservation compliance requirements on highly erodible

land.  
 • Advance recourse commodity loans will not be made available.  
 • Advance deficiency payments will be made for wheat, feed grains, upland cotton and rice at

40 percent of the projected deficiency payment rates.

- The program enrollment period runs from Jan. 16 through April 13, 1990.

## Scheiss Brothers

(Continued from Page D2) was named champion shower. His brother Eric, 17, received the champion fitter award, and David, 14, showed the reserve grand champion steer, a 1180-pound medium heavyweight. David also showed a mediumweight steer that placed first in its class at the August 22 show, held at the Franklin County Fairgrounds.

The brothers are the sons of Daryl and Penny Scheiss, who served as ringman and clerk at the show.

Judge Brenda Walters admired Donnie's grand champion for its nice balance, saying it was thickly

muscled over the top and down into the quarter.

A partial list of the winners follows.

- FITTING Novice**  
 1. Jimmy Clapsaddle; 2. Michael Schellhase; 3. Ryan Eshleman.
- Intermediate**  
 1. David Scheiss; 2. Cheryl Hawbaker; 3. Beth Amsley.
- Junior**  
 1. Heather Sites; 2. Karen Eshleman; 3. Lorinda Hawbaker.
- Senior**  
 1. Eric Scheiss; 2. Donnie Scheiss; 3. Nicole Lebo.
- Champion Fitter**  
 Eric Scheiss
- SHOWING Novice**  
 1. Michael Schellhase; 2. Jimmy Clapsaddle; 3. Ryan Eshleman.
- Intermediate**

1. Cheryl Hawbaker; 2. David Scheiss; 3. Beth Amsley.
- Junior**  
 1. Daren Statler; 2. Steve Clapsaddle; 3. Lorinda Hawbaker.
- Senior**  
 1. Donnie Scheiss; 2. Nicole Lebo; 3. Daren Meyers.
- Champion Showperson**  
 Donnie Scheiss
- LIGHTWEIGHT**  
 1. Trina Eshleman; 2. Ryan Eshleman; 3. Daren Statler.
- MEDIUMWEIGHT**  
 1. David Scheiss; 2. Hope Mackey; 3. Cheryl Hawbaker.
- LIGHT HEAVYWEIGHT**  
 1. Jody Hawbaker; 2. Nicole Lebo; 3. Michael Pedersen.
- MEDIUM HEAVYWEIGHT**  
 1. Lorinda Hawbaker; 2. David Scheiss; 3. Daren Meyers.
- HEAVYWEIGHT**  
 1. Donnie Scheiss; 2. Eric Scheiss; 3. Daren Meyers.
- Grand Champion**  
 Donnie Scheiss
- Reserve Grand Champion**  
 David Scheiss

## P10 SERIES PULVERIZER

### NEW P10 SERIES TRANSPORT CONCEPT

Brillion's transport concept is new to the industry. Machine weight is hydraulically rotated over the wheels for transport. This reduces drawbar hitch weight considerably and provides ample clearance for transporting.

### THE IDEAL SEEDBED

Brillion Pulverizers crush clods and firm the soil for better contact between the seeds and soil. Small stones are pressed down and air pockets are eliminated so moisture can be drawn up from below by capillary action. The loose surface mulch retards evaporation and conserves moisture.

### CHOICE OF SIX TYPES OF ROLLER WHEELS

Choose the wheel that is best suited to your soil conditions.

- | PDT MODELS   | PXT MODELS                                  | PCT MODELS   | PGT MODELS  | PMT MODELS  | PST MODELS  |
|--|---|--|---|---|---|
|  |   |  |   |   |   |
| 20" DUCTILE IRON (5 year limited warranty) Good for loose powdery soil | 20" NOTCHED Use when more weight is desired | 20" CROWFOOT More aggressive clod breaking action Effective on muck land | 18" SMOOTH Smooth wheels perform well in most soil conditions | 16" NOTCHED Notched wheels form little pockets in the soil to trap moisture | 15" SMOOTH W/SPROCKETS Self-cleaning sprocket leaves loose material on surface to reduce crusting |
