

We can help you haul, unload faster.

You can unload any crop quickly and efficiently with the new big capacity Model 716 forage box from Ford New Holland. Roller chain drive provides unloading speeds of 2.39 and 5.40 feet per minute. And tough Duraply sides flex under heavy loads for season after season dependability. The "716" unloads from the front and comes standard with three self-aligned beaters and baked enamel galvanized roof. For a closer look, stop in and see us about this new forage box.

Maximum dependability. Minimum Maintenance.

Whether you need a wagon for light- or heavy-duty hauling, there's a farm wagon from Ford New Holland that's the right size for you. Three models have ASAE load ratings ranging from 8½ tons to 12½ tons. The Model 612 (shown above) is designed to take the stress of heavy-duty forage boxes that need maximum flotation. It's the biggest and strongest wagon ever offered by Ford New Holland. Stop in soon and ask about it.
