## Acres Corn Update

7125

Com futures prices closed sharply lower this afternoon under pressure from fund long liquidation fueled by sharply lower wheat prices. Today's settlements were from 2-3/4 to 5-1/2 cents lower in heavy volume. Prices were fractionally mixed this morning after yesterday's neutral to slightly bearish report with added pressure coming from the absence of fresh demand. Wheat prices plunged on news that the USDA is expected to announce this week a proposal to allow producers to plant 110% of their base acreage. Losses in September were pared by strong cash basis levels and late harvest ideas. December dropped 5-1/2 cents and settled at \$2.29-1/2 after trading in a range from \$2.29 to \$2.35-1/2.

**COLUMNS** 

Acres Soybean Update Soybean futures prices settled sharply lower this afternoon with selling tied to technical indicators after a neutral to bearish crop report. Some pressure was attributed to news that several traders in Ferruzzils Paris office had been dismissed with additional selling seen in response to steep losses in wheat. Further pressure was in response to new forecasts calling for clearing weather in the midwest over the next week. November closed out today's session 10-1/2 cents lower at \$5.75 after trading in a range from \$5.73 to \$5.92. September was 15-1/2 cents lower at \$5.86-1/2

Acres Wheat Update Wheat futures prices plunged from 8 to

14 cents lower today, making the largest single price decline in months and set new contract lows in March, May and July. Heavy sales were tied to fund long liquidation fueled by talk that the USDA was expected to make an a7nouncement this week that producers would be allowed to plant 110% of their base. Further pressure was linked to wire service reports that the USSR had made all their grain purchases for this year. September closed 8 cents lower at \$3.85 while the new crop months dropped from 10-3/4 to 14 cents.

Acres Cattle Update Live and feeder cattle futures closed mostly higher this afternoon with October fats 20 weiker on professional long liqui-
