

Question Corner

(Continued from Page B8)

ANSWER — Inez Ware, Waynesboro, VA, requested a recipe for making A-1 steak sauce. Thanks to Chris Hoover, Stevens, who sent in a recipe.

Steak Sauce

- 1 cup catsup
- 1/2 cup coarsely chopped onion
- 1 large garlic clove, peeled and smashed
- 1/4 cup dry white wine or water
- 1/4 cup Worcestershire sauce
- 1/4 cup fresh lemon juice
- 1/4 cup white distilled vinegar
- 2 tablespoons soy sauce
- 2 tablespoons brown sugar
- 1 tablespoon prepared mustard

Mix and simmer 30 minutes, uncovered. Stir occasionally. Strain to remove onion and garlic or leave in for chunky sauce. Pour in clean bottles. Can or store in refrigerator.

ANSWER — For those who have an abundance of zucchini, Mary Jane Reinecker, York Springs, sent a recipe to help.

Zucchini Bars With Carmel Frosting

Sift together:

- 3 cups flour
- 1 1/2 teaspoon baking soda
- 1 teaspoon salt
- 1/2 teaspoon nutmeg
- 1/2 teaspoon cloves

Cream together:

- 3/4 cup margarine
- 1 cup brown sugar
- 1/2 cup granulated sugar
- 1 teaspoon vanilla
- 2 eggs

Combine both mixtures; gradually add:
2 cups peeled and grated zucchini

PDPP To Co-Sponsor Museum Exhibit

At the request of the Academy of Natural Sciences in Philadelphia, the Pennsylvania Dairy Promotion Program has agreed to co-sponsor the Academy's three-month special exhibit, "COWS! Fact & Fancy," which opens to the public October 15.

For the October 14 preview, the PDPP has arranged for appearances by Dairy Princesses and the popular animated pink cow costumed character, dairy food preparation demonstrations, and dairy promotional item giveaways. The PDPP will coordinate similar activities during the exhibition's November 18-19 "Cow Round-Up" weekend.

"COWS! Fact & Fancy," which runs through January 15, 1990, will feature four main areas, each addressing a different aspect of cows: "Evolution and Domestication," highlighting specimens from the Academy's vertebrate paleontology collection; "Cows as Symbol," a traveling photography exhibit curated by the International Museum of Photography at George Eastman House; "Cow Biology," that will include a walk-through model of a cow's stomach; and "Cow Facts," that combines fun with information on bovine daily habits, needs and behavior.

The exhibit will be at the Academy of Natural Sciences Museum, 19th and Parkway in Philadelphia, and will be open from 10 a.m. to 4:30 p.m. Monday through Friday; and 10 a.m. to 5 p.m. Saturday and Sunday. Admission is \$5.00 for adults, \$4.00 for children, and \$4.50 for seniors and military personnel. For further information on the exhibit, phone: (215) 299-1020.

1/2 cup chopped walnuts
1/2 cup butterscotch chips OR raisins
Pour into greased and floured 10x15-inch jelly roll pan. Bake at 375 degrees for 20 to 25 minutes. Frost with carmel frosting:

1/2 cup margarine
1 cup brown sugar
1/4 cup milk
1 to 1 1/2 cups confectioners' sugar
Melt margarine. Add brown sugar and bring to a boil for 2 minutes. Add milk and bring to a second boil. Remove from heat. Add enough powdered sugar to spread when cool. Cut in squares.

ANSWER — Lisa Barnes of Christiana requested a recipe for peanut butter fudge. Thanks to a reader who wrote that this one is "good, easy and different" from those previously printed.

Peanut Butter Fudge

2 cups sugar
3/4 cup milk
Cook milk and sugar until the mixture reaches 234 degrees or it forms a soft ball in cold water. Remove from heat. Stir in one small jar marshmallow cream and 1 cup peanut butter; mix until well blended. Pour into buttered 9x9-inch pan.

You are what you

SIMPLE ECONOMY.

The Kubota L2050 compact diesel tractor was designed to combine versatility with operating economy, pure and simple. With eight forward speeds, the Kubota L2050's powerful, four-cycle 20PTO HP diesel engine delivers ample power for most farming tasks. Direct fuel injection increases fuel economy. High torque rise allows the Kubota L2050 to recover from sudden load increases that will stall most conventional engines. Versatility is guaranteed by optional quick attach implements like a front loader, box scraper, mid-mount mower and tiller. Put the Kubota L2050 to work. It's simply economical.

THE QUICK REVERSE.

You might say the L3750 is quick on its tires. With eight forward and eight reverse speeds plus your choice of a mechanical or hydraulic shuttle-shift, all kinds of front loader jobs go quick.

The L3750 is even a smooth mover under the hood. A new 5-cylinder diesel engine improves performance over a smaller engine, without the fuel consumption of a bigger engine.

Other features that help make the work go quickly include a cleanly designed operator platform with the gearshift controls within easy reach at your fingertips. Not underfoot.

So see the 36 PTO horsepower Kubota L3750 soon. Or make that quick

DIRECT INJECTION DIESEL.

Kubota has a compact tractor with direct fuel injection. The L2250 has a 3-cylinder engine with 21 PTO horsepower. Plus it has direct injection for improved starts in cold weather and better fuel economy, too.

Other standard features, not so standard on most tractors of this size, include rear- and mid-mount PTO for maximum versatility when it comes to attaching implements. Surprising, wet disc brakes are standard, too. Power steering is standard on the deluxe model.

Our operator platform is designed for increased comfort, with all the important controls at your fingertips. Not underfoot.

To find out more about the Kubota L2250, please direct your questions to us.

WORK A SHORT SHIFT.

The Kubota L4150 makes short work out of shifting from forward to reverse. And that makes loading, leveling, grading or any other kind of work on a construction site go faster, too.

It comes with an 8 x 8 partially synchronized manual transmission. Or choose an optional hydraulic shuttle shift for quick reverse capability. You never have to touch the clutch.

There are also eight forward and eight reverse speeds. So it's easy to select the best speed for any job.

So come see the Kubota L4150. It could help shorten your workday.
