**NEW! LAIDIG 43R!**

If you're bothered by high maintenance costs, poor feed delivery or a free flow unloading system that fails, then you need the new Laidig 43R conversion package.

The 43R converts some existing oxygen limited metal structures to high performance Laidig unloading in just one day without alterations to your structure!

The Laidig 43R Power Sweep Auger replaces gravity feed augers. It works for you every day, not just at the end of the season. It's the full time unloader.

The Laidig 43R is the heavy duty machine engineered to the high quality and performance standards that operators expect from the leader - from Laidig.

**Get the Power You Pay For With Van Dale DURAGLIDE™**

Get This!

Not This...

The newest innovation in silo unloading—from Van Dale, of course—is the DURAGLIDE Impeller System, which dramatically increases throwing power while reducing power requirements.

The DURAGLIDE paddle and wrapper inserts are slicker than glass and more durable than stainless steel.

Reduces friction and gummy buildups in the impeller.

Results in silage out the door every time—no annoying trips up the silo!

See this revolutionary system today at your local Van Dale dealers.
