

# Come on in and trade for performance.

When it comes to harvesting, you can't beat the heavy-duty performance that's built into the New Holland Model 790 forage harvester. Performance starts at the cutterhead. The 19<sup>11</sup>/<sub>16</sub>-inch wide, 12-knife cutterhead delivers a fine uniform chop that's just right for most silage feeding operations. And an electric clutch gives instant response and positive control on the reversing gearbox. The Model 790 is available with either a 540 rpm or 1000 rpm PTO drive.

Stop in today and trade for the performance leader in harvesters — the 790 from Ford New Holland.
