

One tree doesn't make a Woods

Nor does just one product. That's why when Woods introduced the world's first successful tractor powered rotary shredder back in 1947, they didn't rest on their laurels. Instead, they continued to apply outstanding engineering expertise producing equipment packed with performance, reliability and value. The results: a line-up of over 50 different products including mowers, cutters, rear scraper blades, back-hoes and specialty machines. The best that money can buy.

WOODS

Division of Hesston Corporation
