Max. Empty Weight	8160 lbs.
Approx. Loaded Weight	10,000 lbs.
Grain Box Capacity	32 Bushels

Bush Hog/Lilliston No-Tillage Seed Drills are designed to operate in maximum-severe field conditions and for uniform penetration of heavy stubble and hard soils. You can rely on proven quality, performance and durability—whether you select a 9670 drill with a 7'6" planting width or a big 9690 drill with a planting width of 10'6".

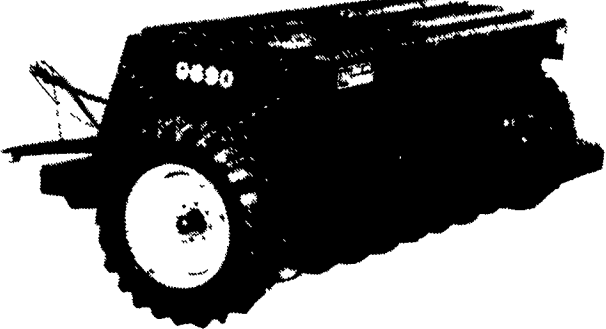

These rugged tools were developed for no-tillage applications of seed in one pass over unprepared land. 14-inch solid coulters slice through heavy stubble and 14-inch double disc openers open a slot and place the seed. Center rib gauge wheels hold the openers at the correct depth and firm soil around the seed. Up to 400 pounds of down pressure can be applied to each opener. Cluster gear boxes have two simple lever settings that make it easy to select any of 27 application rates.

Basic features of Bush Hog/Lilliston No-Tillage Drills include ease of operation and simple adjustments, as well as heavy duty construction, mobility and effective weight distribution.

Standard Equipment Includes: Double run feed cup, acre meter, weight box, parking jack, 12 4x24 bar-lug tires
