Case IH
Remanufactured
Torque Amplifier

A Case IH Remanufactured
torque amplifier assembly
can go a long way toward
restoring original performance to your tractor. In an older
tractor, it may even increase load carrying capacity. That's
because Case IH torque amplifier design has been improved
over the years and those improvements have been incorporated
in today's units. The result is positive lockup and greater
strength for full-time, heavy-duty operation.
Prices based on receipt of an acceptable core.
