VAN DALE Dependability through Quality

RISING FEED COSTS?

VAN DALE Has The Answer!

the Orbit Mixer

Thousands of dairy farmers just like you have changed to a total mixed ration program for their dairy herds—and they're glad they did. By working with a qualified nutritionist to determine the most economical ration for their herds and by using a VAN DALE Orbit Mixer designed to blend the exact ration every time, these dairy farmers are reporting significant profit improvements through lower feed costs and/or higher milk production.

Typical Savings for 60 Cow Herd

Feed Cost — 20 cents per cow per day
60 cows x 365 x .20 = \$4,380

Milk Production — 4 lbs extra per cow per day
60 cows x 300 x .48 x .10 = \$7,200

Bottom Line Saving: \$2,820

See your local VAN DALE dealer
