## Superkids Discover The Power Of Food

My dream is to join the circus. I want to hang from a rope by my teeth!

Then Milk Group foods will help you.

Foods from the Milk Group help build strong bones and teeth. And that's pretty important for an acrobat.

What's in the Milk Group?

Can you help Susan? Find the 10 words from the Milk Group. They are hidden in the puzzle. That's right. Some words are written from top to bottom. Some are written from bottom to top. Others go from left to right. And others are written diagonally.

These Milk Group foods are in the Seek-and-Find.

The Superkids have big dreams. They dream about what they want to be when they get older. They'll need foods from each of the Four Food Groups to reach their dreams. Each Food Group is important. The puzzles and pictures were developed by the National Dairy Council.
