(Continued from Page D28)

and he dumped her. It was funny, but I'm glad it wasn't me."

Many writers mentioned the dedication of the extension agents, their kind and patient help, self-sacrifice and loyalty. One high school student told of the extra

effort made by her extension office when she was an exchange student in South America. "I thought that I would be unable to participate in 4-H while I was halfway around the world, and would have to rejoin this year. But, the 4-H extension office

wouldn't allow me to lose contact with what was happening in my club back home. During my stay overseas, my extension office sent me everything that I normally would have received if I were at home... and more! Because of their thoughtfulness, I was able to complete my projects and keep in touch with my club at home."

One young writer related, "As a 4-Her, I have learned that extension agents do much more than assist local farmers. They have jobs as different as apples and oranges, but there is one thing they all have in common. They are helping to 'grow' a fine crop of young people." Individual growth and the "friendships gained and the horizons broadened" were recurring topics. The opportunity to help others and be involved as a

team member was a valuable experience for many.

The experiences with extension have been, in the words of one writer, "long, loving and profitable." And many ended their essays with a thank you. "I thank 4-H for giving me the opportunity to make a difference in myself and others." And another said, "If I tried to write everything I have learned in 4-H, it would take me forever."

BASEMENT OIL STORAGE TANKS
