For Yield... W-L alfalfa stacks up.

FOURTH
YEAR

WL Competitors

W-L Alfalfa varieties are strong producers throughout the life of your stand. You can't afford to settle for less.

If your alfalfa doesn't make it to the fourth year, you've reduced the overall profitability of your crop.

In test after test by public and private researchers, W-L alfalfa yields stack up for profits. For more than 25 years, W-L alfalfa varieties have been bred for long stand persistence, quick recovery after cutting, multiple pest resistance and extra leafy, fine-stemmed forage. With proper crop management, you'll have strong fourth-year yields that stack up for a profitable crop.

Cablevey - the PROFIT CONVERTER

automates
feeding

Satisfied CABLEVEY Customers Chose CABLEVEY
Over Other Barn Feeders Because:

- 1.) CABLEVEY Measures Feed By Weight - No other barn feeder on the market actually weighs the amount of feed delivered to each cow.
- 2.) CABLEVEY Saves Energy - 1 motor and 1 system handle many livestock operations.
- 3.) CABLEVEY Reduces Feed Separation - Unlike flex augers, feed separation is minimal - that means a more uniform ration to all cows.
- 4.) CABLEVEY Keeps Feed Fresh - "Trip After Fill" operation means no feed is delivered to the drops until feeding time.
- 5.) CABLEVEY Takes the Corners - Specially designed 90° corners allow efficient system operation for any barn layout.
- 6.) CABLEVEY Installs Easily - No need for installing steel beam track to support heavy feed hopper loads.

CABLEVEY Systems Are The "Best Buy" For Your Money Invested!
