NOTICE TO DAIRY FARMERS

Why is the Greenhouse Effect so hazardous to the competition?

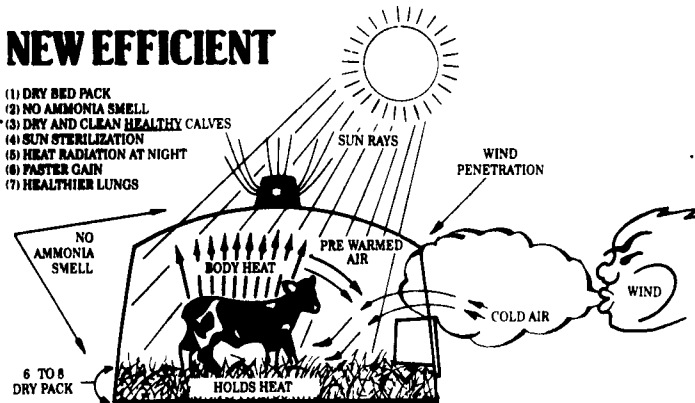

Because as the word spreads how well they Grow Calves, they sell less and less open huts. Seems that all the competition can snivel about is Heat. They don't seem to recognize that cold, wet, dark and drafty huts **KILL MORE CALVES**, and cost more to use because of lost growth, than heat ever will. Properly **MANAGED** for summer use, Poly Domes will give you uncomparable **GROWTH** and **LUNG POWER** needed for your replacement Herd. The intolerable heat variation is about 22 degrees in Poly Domes, not as excessive as open Huts. The moisture problems are less than competitive huts because of a properly designed vent system. Poly Domes have less condensation than the competition. Your Vet would agree, if things happened as the competition says, **BUT THEY DON'T**.

It's Time To Make A Change!

OLD INEFFICIENT

NEW EFFICIENT

- Best growth and survival
- Use with or without pen
- Lightweight, one-piece construction
- Wind resistant
- Sawdust or wood shavings not recommended for bedding.
- Tapered and stackable
- Clean in Spring and Fall
- No rock or sand base needed
- 3-year pro-rated guarantee
