

The "Quality Crafted" Line Better Seedbeds...Better Stands!

DEEP TILLS

This 9 shank model has a cutting width of 11'3" and is fitted with the optional drawbar hitch. It is equipped with the coulter gang assembly, which has 10" vertical adjustment. Shanks are set at 15" spacing but may be converted to 30" spacing by raising the rear row of shanks. Depth is controlled by hydraulic gauge wheels.

3-SHANK DEEP TILLS

The three shank model, shown above, has a Category II hitch. With a cutting width of 7'6", it is ideal for operators with smaller acreages and horsepower. It is extremely maneuverable, yet provides the same basic deep tilling job as its "big brothers."

7-SHANK DEEP TILLS

The 7 shank model shown here, as well as the 5 shank model, has a Category III hitch. This model is equipped with single individual trash cutting coulters and cuts a 17'6" width. It uses manual gauge wheels.

AG SEEDERS

SURE-STAND SEEDERS Get robust, productive stands every time by putting the seed into the ground where it belongs. Saves up to 50% on seed costs. 5 ft., 8 ft., 10 ft. & 12 ft.

HYDRAULIC TRANSPORT KITS FOR SURE STAND & TURF MAKER GRASS SEEDERS

IN TRANSPORT
Your seeder is raised by your tractor's hydraulic system. Seed rollers have about 11" of ground clearance. A hinge type transport lock, similar to that used on other Brillion machines is simple, yet secure for road travel. Kit includes hoses to tractor, four flow restrictors, cylinders and transport locks.

TURF MAKER SEEDERS

This Brillion specialty seeder utilizes the same world famous seeding method made popular by the "Sure-Stand" agricultural model grass seeder. Variations in seedbox capacity and seed metering mechanisms make these the ideal seeder for special requirements of professional landscapers, turf and sod raisers. 10 ft.

88-INCH PULVI-MULCHERS

This 88" Pulvi-Mulcher was originally designed for the European market, to meet transport limits. However, this new width has found a home among American operators who have limited width requirements...like truck farmers, nurserymen, fruit and vegetable growers.

ML SERIES PULVI-MULCHERS

PULVI-MULCHERS Build a firm clod-free seedbed — one that lets all the seeds germinate at one time. 12 ft., 13 ft., 8", & 15 ft.

WLS PULVI-MULCHERS

The latest example of how Brillion has met the challenge of the earth and the competition. The front rollers break up surface clods. "C" shaped ribbon teeth or "S" spring tine teeth break up the soil to 6" in depth and pulls clods to the surface. 21 ft. 8", 25 ft. & 30 ft.

SOIL BUILDERS

SUPER SOIL BUILDERS Expanded frame for residue flow-thru without plugging. Coulter gang can be hydraulically controlled to save maintenance dollars. 5, 7, 9 & 11 shank.

SOIL GROOMERS

Main illustration shows 12-foot Soil Groomer with spike drag harrows. Inset photo shows new disc arrangement with 18" dia. discs that move soil inward to reduce ridging. Scrapers are adjustable. 12 to 30 ft.

LANDSCAPE SEEDERS

Like the larger models, the 5'4" crushes, seeds and rolls in one operation, tucking seeds in the top 1/4" of the soil... in a firm clod-free seedbed that gives thick, even stands at greatly reduced seeding costs. The shallower seeding depth is just right for controlled moisture and growth conditions.
