

Brown Swiss Honored For High Milk Production

BELOIT, Wisc. — A number of Brown Swiss dairy cows on farms in the Eastern states were honored recently by the Brown Swiss Cattle Breeders' Association for their high milk and milk component production records.

The association sets levels of milk production it deems worthy of regional recognition, national recognition and also honors those cows whose production is among the top five of all time for an age division.

All production awards are based on either a 306- to 365-day lactation or records of 305 days or less. Unless otherwise noted, the lactations are reported as more than 306 days.

In Pennsylvania, Meadow Hill S Imp Jessica ET, owned by Gary L. Mase, Lebanon, received both local and national recognition for production as a four-year-old of 27,340 pounds of milk, 1,082 pounds of butter fat and 1,001 pounds of protein.

In New York, Ka Cy Dreamer and Ka Cy Go Ahead both received national and local recognition for their dairy production. The two cows are owned by Ka-Cy Farms, Medina. Dreamer recorded

a production of 27,170 pounds milk, 1,038 fat and 952 protein. Dreamer was 7-years-old at last freshening. Go Ahead, 6-years-two-months old at last freshening, recorded a production record of 24,810 pounds milk, 1,141 fat and 947 protein.

In Virginia, Shen Val Improver Evilo Min, owned by Gary McDonald, of Stephens City, was given local recognition for production of 28,600 pounds milk, 981 fat and 966 protein. She had freshened last at 6-years, three months.

In Ohio, Twin Gate Mayflowers Charm made the association honor roll with a production of 21,090 pounds milk, 811 fat and 715 protein on a first freshening at 1-year, 11 months. Charm is owned by Earl F. Bursiek and family, Gibonsburg.

Several other, older cows on Ohio farms also received national and/or local recognition.

Mallory Brook Chrysanthemum, owned by Henry G. Young Jr., of Morrow, produced 24,890 pounds milk, 1,046 fat, and 917 protein to gain both national and local recognition. Chrysanthemum freshened at 7-years, 4-months old.

Gentle Breeze Matt Christine, owned by R-Hart Farm, Wapakoneta, gained both levels of recognition for production of 30,890 pounds milk, 1,360 fat, 1,060 protein. She last freshened last at 6-years, 2 months old.

La Rainbow Farms, of New Knoxville, lays claim to three outstanding cows.

La Rainbow Sweet Cherish, freshened at 7 years, 9 months, was

honored locally for having produced 23,470 pounds of milk, 1,117 fat, 826 protein in less than 305 days.

La Rainbow Miss Gidget, freshened at 9 years, 9 months, and took national and local recognition by producing 30,300 pounds of milk, 1,187 fat and 1,031 protein.

La Rainbow Princess Belinda freshened at 8 years, 10 months and earned local honor with a pro-

duction of 27,090 pounds of milk, 1,113 fat and 882 protein.

Griesheimer Brothers, from Valley City, own honoree Hawthorne Mistress Lassie. Freshening at 9 years, 1 month, she produced 25,060 pounds of milk, 1,043 fat and 887 pounds protein.

From the herd of Ed and Paul Beiler, Bellevue, Snells Telstar Tock, freshened at 6 years, 1 month, received recognition for production of 23,210 pounds of milk, 1,123 fat and 845 pounds protein.

“Your silage spreader works great. Now if I could just reach it from the blower.”

Ken Zurn, dairyman

Our new, longer, 42" ground control handle lets you change the spreader head position of your Multi Flo™ silage spreader from where you operate the forage blower.

A perfect example of how we use customers' suggestions.

New easy-to-reach ground control handle makes work safer and easier

This important change is a major improvement because you will not have to walk around the blower or climb over the running PTO shaft — operation is now safer and easier. And the handle folds flat against the silo and locks securely out of the way when not in use.

Ask your silo dealer today about Lancaster Level-Flo. Or, for the dealer nearest you, call our Mount Joy, PA, office at 717-653-2239 or our Footville, WI, office at 608-876-6146.

If it doesn't say Lancaster Level-Flo, it's not a Multi-Flo™ silage spreader.

The Sollenberger UPRIGHT BUNKER SILO

- Fast Installation
- Low Cost
- Durable
- Moveable
- Attractive
- Quality Storage for corn silage, haylage and high moisture ground ear corn
- Other uses — Storage for bulk materials, retaining walls and manure pits
