

The "Quality Crafted" Line Better Seedbeds...Better Stands!

ROLLING ON...IN THE 90's

DEEP TILLS

This 9 shank model has a cutting width of 11'3" and is fitted with the optional drawbar hitch. It is equipped with the coulter gang assembly, which has 10" vertical adjustment. Shanks are set at 15" spacing but may be converted to 30" spacing by raising the rear row of shanks. Depth is controlled by hydraulic gauge wheels.

3-SHANK DEEP TILLS

The three-shank model, shown above, has a Category II hitch. With a cutting width of 7'6", it is ideal for operators with smaller acreages and horsepower. It is extremely maneuverable, yet provides the same basic deep tilling job as its "big brothers."

AG SEEDERS

SURE-STAND SEEDERS Get robust, productive stands every time by pulling the seed into the ground where it belongs. Saves up to 50% on seed costs. 5 ft., 8 ft., 10 ft. & 12 ft.

TURF MAKER SEEDERS

This Brillion specialty seeder utilizes the same world famous seeding method made popular by the "Sure-Stand" agricultural model grass seeder. Variations in seedbox capacity and seed metering mechanisms make these the ideal seeder for special requirements of professional landscapers, turf and sod raisers. 10 ft.

LANDSCAPE SEEDERS

Like the larger models, the 5'4" crushes, seeds and rolls in one operation, tucking seeds in the top 1/4" of the soil... in a firm, clod-free seedbed that gives thick, even stands at greatly reduced seeding costs. The shallower seeding depth is just right for controlled moisture and growth conditions.
