RYE SEED

New Danko Rye Seed offers many advantages including yields approximately as high as wheat (up to 80 bu/acre) plus high resistance to winter injury, lodging & sprouting.

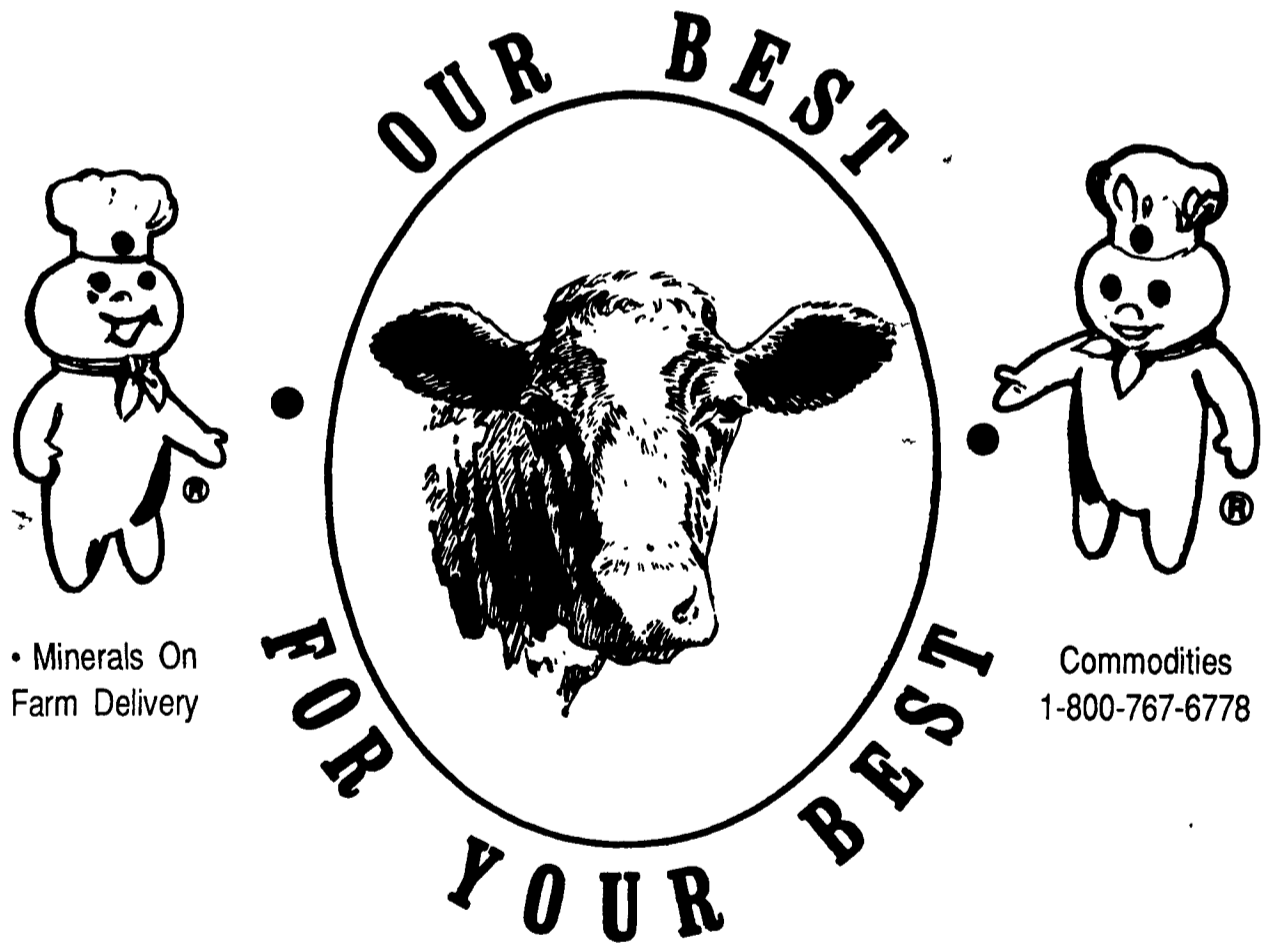

Danko is a fine-seeded rye variety & Davey-Joan's of Williamstown, New York is a major propagator and source of Danko rye seed in the U.S. They report that even with this year's above normal (25") rainfall in their area in May, June & July they have experienced no lodging or sprouting.

Danko can be planted from the 2nd week in September to November 1st. The ideal time is the first week of October. It grows later in the fall & starts earlier in the Spring.

Davey-Joan's has clean seed available in both bulk truck or trailer loads and in bushel bags at \$6.00 bagged or \$5.50 bulk per bushel - FOB Williamstown, N.Y. Please call for quotes on tractor trailer load quantities.
