**"Farming is a big investment..."**

Time is valuable. An equipment breakdown in the field, delayed supplies, or sudden weather changes mean lost dollars, without quick reaction. Our GE mobile radio system gives us greater control and coordination over our operation. It's a farmer's friend."

Roger C. Garber  
James M. Garber & Sons

With harvest season in full swing, your farm and equipment need to be operating at full potential. That's why more farmers are turning to General Electric Mobile Radio Systems. They provide quick, cost effective communications from home or field. It's like having another "farm hand" to help with the chores.
