Corn Fodder Baling Takes A Tough Baler, That's Why A Case IH Baler Shoud Be Your Next
A STRAIGHT LINE IS STILL SHORTEST

Case International Rectangular Balers 8520/8530/8545/8550/8580

We Have Models 8520-8530 & 8545 In Stock For Your Tough Baling Needs - Call Or Stop In & See Binkley & Hurst Soon!

Produce tighter, more uniform bales—on schedule.

That's why all five 8500 Series Case IH Rectangular Balers give you center line design. Your hay moves in a straight line from the time it's picked up until it leaves the baler as a tight, uniform bale

Center line means there are no corners to turn to get crop into the bale chamber as with conventional balers. Nutritious leaves go into the bale not on the ground. And with the baler directly behind the tractor, it's easy to transport through narrow bridges and gates

- Case IH Rectangular Balers also give you
- Wide, low profile pickups collect full heavy windrows with leaf saving gentleness because the crop is not lifted as high to get it into the baler
 - Prepacker chamber compresses hay into uniform flakes
 - Flake size, density and bale size are more uniform
 - High speed short stroke plunger to pack bales tighter
 - Hydraulic density control (optional on 8545, standard on 8550/8580) to regulate chamber pressure for tighter square shouldered bales for easier stacking

Bale Your Corn Fodder With The Best New In-Line Case IH Baler

In Stock - Ready For The Horses. Model 8520 Requires Less Power Than Most Conventional Balers. Try One Now!

Is The Baler Getting Tired? Ask For A Demo Now - Let's Make A Deal!

Open The Ground & Let The Water In With A CASE IH MODEL 10 SUBSOILER CHISEL.
