Markers Available For JD 750 Drills

Yetter 6001 Series flat-folding hydraulic markers are available with a new mounting especially designed for 15' and 30' JD 750 no-till drills.

PEORIA, Ill. — Yetter 6001 Series flat-folding hydraulic markers are available with a new mounting especially designed for 15' and 30' JD 750 no-till drills. The new mounting kit permits the markers to mount flush with the sides of the drill rather than extending out where they could be damaged in transit or when the drill is being parked in the close confines of a machine shed.

Yetter markers are available in

bi-fold and tri-fold models and feature totally enclosed hydraulics, including a sequence valve that folds the unit 180° following each sequence. A break away hinge protects the marker against damage if it strikes a rock or other obstruction. Heavy duty bearings, hub assembly and arms are designed to provide long, trouble-free service under all field conditions.

Depth bands, plus all new adjustment on the marker discs, provide uniform operation in all soils. Yetter 6001 markers, in addition to the new mounting for JD 750 drills, mount quickly and easily on virtually all makes and models planters and drills.

For information, contact Yetter Mfg. Co., Colchester, IL 62326-0358, (800) 447-5777 or (309) 776-4111.

Jake, did you hear the latest?

What Luke? What?

Binkley & Hurst Bros. Cash & Carry
Days Sale starts Monday,
December 10th.

Luke, that means Saturday,
December 8th issue of Lancaster
Farming will be loaded with
Good Buys.

I tell you Jake, no matter how busy
they are, they will go out of their way
to help you.

I know Luke, that's why I enjoy going
there, for Big Savings and they keep
saying "help yourself" to more
refreshments.
